INTRODUCTION

The **WIND MEASUREMENT** is a keen aspect for knowing the details of changes in weather for a local area. Generally, the local **INDIAN METEOROLOGICAL DEPARTMENT** issues the data about weather 2 times a day for day-to-day usage by the sectors like **aviation**, **navigation, shipping**, etc.,.

The measurement of wind is generally taken by **METEOROLOGICAL DEPT**., using some instruments like Pilot balloon, Altimetry & Android Anemometers.

Here we used **BATTERY OPERATED WIND ANEMOMETER** (DIGITAL) to measure wind speeds at various heights. The air temperature is measured by using **THERMOMETER** (graded to 1^0 C)

PROCESS TO MEASURE WIND SPEED WITH ALTITUDE

The instrument involved to measure wind speed with altitude is **DIGITAL ANEMOMETER**.

DIGITAL ANEMOMETER

Digital Anemometer consists of two main parts. Viz.,

1) Digital measurement box 2) Anemometer Wane Probe.

Anemometer probe consists of a small fan attached to a speedometer chord which is kept in a plastic casing. The total probe is very light weight so as to hold it by hand with comfort. The chord is attached to measurement box which calculates the wind speed in various measuring units such as

Fpm, mps, kmph, knots etc.,.

The height is measured by using **ALTIMETER**. Students have constructed their own **ALTIMETER** by using a **METER SCALE** & a **HORIZONTAL BAR**. The bar is fixed normally to the scale.

TAKING MEASUREMENTS

TAKING READINGS USIND DIGITAL ANEMOMETER

The project was conducted in the beautiful location of **PADERU HILLS**. The hill chosen for this project connects **PADERU TOWN** to a remote village named **BARSINGI & DOKULURU**.

Students gathered at the foothill and took the initial readings of wind speed (with anemometer) & air temperature (with thermometer). Then they measured the height by **1m** uphill and took the next measurement.

Measurement of Altitude :-

A student will steadily place the meter scale normal to the ground level and gazes towards the front along the horizontal bar. Another student slowly walks in the forward direction and the student who watches over the bar carefully observes the forward moving student. When the feet of the student is clearly visible to the eye of the student who is gazing over the bar(at the edge of the horizontal bar) …the student who is moving forward is made to stop. This is taken as **1 m altitude**.

The altitude measured in this method may not give a perfect altitude reading, but the innovative method used by the students is really appreciable.

Measurement of Wind Speed

When the **1 m** altitude position is marked on the ground surface, a student will hold the **wind wane probe** in one hand and the **digital measurement box** in another hand. The probe is placed along the direction of wind flow. The fan present In the probe rotates utilizing the wind force. A **10 second** count is given for the wind to pass through the fan of the probe. Then the **HOLD** button is pressed which is present on the measurement box and a fixed value of wind speed is displayed on the screen of the measurement box.

Measurement of Air Temperature

A thermometer is held with 2 fingers steadily nearly **5 feet** above the ground surface. The alchohol present in the bulb of the thermometer receives the warmth from the surroundings and gets heated and expands-up into the thin capillary tube. The reading of the

liquid present in the capillary tube is measured (corrected to 1^0). The readings are tabulated.

The altitude, wind speed & air temperature are tabulated in the following format : -

Sl. No.	Altitude (meters)	Air Temperature (^{0}c)	Wind Speed (in m/sec)
1	1	25	0.5
2	2	24	0.6

CONCLUSION

The mini project titled **"WIND SPEED MEASUREMENT WITH ALTITUDE"** clearly spotlights the fact that the winds around hilly regions are much cooler than the winds over plain areas where sunlight falls directly over vast land coverage. Whereas over hilly regions the sunlight intensity is less compared to plain areas.

This study about wind is highly recommendable to science aspirants which help them to gain knowledge about **OUR MOTHER NATURE.**

REPORT FOR CONDUCTING ICT CLASSES(2021 - 2022)

DEPRATMENT OF PHYSICS conducted **I C T** classes using virtual tools for the very much needy students. The virtual classes were conducted for those students who have less marks in the subject and a little bit backward in grasping the curriculum. It was also seen that the ICT CLASSES are also conducted to Advanced learner students and made them participate in classroom teaching. The virtual classes are conducted in the **PHYSICS LABORATORY & VIRTUAL CLASS ROOM.**

Department of Physics

Guest Lecture

We, the department of Physics organized a guest lecture on Particle motion for 2nd B.Sc students by the resource person Sri.M.Sekhar, Lecturer in Physics, Govt. Degree College, Chintoor, ASR Dist., Sir delivered a lecture on Thermodynamics .He explained the concept of Thermodynamics lies solely on heat applied to any body and properties of body when subjected to heat. The heat transferred to a body is directly proportional to the heat bearing capacity of the body. He explained the usage of proper terms in Thermodynamics and clarified the doubts of the students.

Sub: Requisition for permission to go on field trip to Steel Plant Vishakapatnam on 22-07-2021 request -Reg.

I wish to inform you that Department of Physics is going to conduct an field trip to the students at Steel Plant, Vishakapatnam on 22-07-2021. Hence I request you to permit the following students for field trip. Kindly receive and grant the required permission to the above mentioned. The students are

China occupied the 1st position in the world in the production of IRON by producing 415 million tones. The 8th position is occupied by Bharat which is producing 42 million tones. The raw material for the steel plant is hematite and magnetite. These raw materials are abundantly present in India. India found out 17,717 tonnes of raw-material during the year 2000. The steel plant exported 100 millions of tones to the foreign countries which is U.A.E. and South-East Asia, Myanmar, Singapore.

For any nation to develop economically, Iron plays a vital role. The people of India particularly Visakhapatnam must be proud to have a prestigious steel plant which is getting good name and frame nationally and internationally.

Process of making Iron:

The process of production of iron has three phases.

I. Coack and Battery Phase

II. Blast Furnace Phase

III. Milling Phase

In the 1st phase the raw material is burnt for 18 hours in the Coack and Batteries. The raw material is converted in to coal iron. Then material 13 cooled in the cooling chambers. The below photograph is Coack and Battery.

2. Bell Less top charging system in blast furnace
3. 100% slag granulation at the blast furnace cast house
4. 100% casting of liquid steel
5. Extensive waste recovery system, compressive pollution system control measure

The by-products of the Steel plant:

During process of production of iron many by-products are formed. They are the following:

1. Tar
2. Naphthalene
3. Pyshkal Uria
4. Ammonia
5. Benzene
6. Power
7. Cement from the slag.

The physics people are very much interested in knowing about the function of the machines, principles involved in the machines and product formed out of the machines.

Hence the student of MPC have visited the Steel Plant Visakhapatnam and observed the machines, the principles involved in the machines and the process of formation of iron from the raw material in the steel plant and prepared the project work on the Steel Plant.

విశాఖపట్నం స్టీల్ ప్లాంట్‌ను శ్రీమతి ఇందిరా గాంధి ప్రధాన మంత్రిగా ఉన్నప్పుడు 1971-72 సం॥లో జాతికి శంకుస్థాపన చేశారు. ఈ స్టీల్ ప్లాంట్ 25,000 ఎకరాల విస్తీర్ణంను ఏర్పరిచి యుండి. ఎంతో కొంతమందికి ఇది జీవనోపాధిని కలిగిస్తుంది. సుమారుగా 16,000 యుండి పర్మినెంట్ ఉద్యోగులు పనిచేస్తుండగా, 10,000 మంది కాంట్రక్ట్ పర్మిట్లు కూడ తదనంగా పని చేస్తున్నారు. ఈ స్టీల్ ప్లాంట్‌కు కావలసిన సాంకేతిక ఉపకరణాలు అన్నింటిని ప్రారంభంలో భారత్. రష్యాతో ఒప్పందం కుదుర్చుకుంది. జాతికి కావలసినటు వంటి నీటి ఆవశ్యకతలను రాజమండ్రి సమీప సొంత ఖర్చులతో గోదావరి జలాలను తెచ్చుకునే ఏర్పాటు చేసుకుంది. ప్రస్తుతం 1,500 కోట్ల వ్యాపారం చేస్తూ ప్రత్యక్షంగా, పరోక్షంగాను సుమారుగా లక్ష కుటుంబాలకు ఉపాధిగా పనిచేస్తుంది. జాతికి కావలసినటు వంటి విద్యుత్‌ను కూడ తానే స్వయంగా ఉత్పత్తి చేసుకుంటుంది. ఇందులో సుమారు 120 MW విద్యుత్‌ను ఉత్పత్తి అవ్వతుంది. జాతికి కావలసిన ముడి ఇనుమును ఒరిస్సాలోని కిరండోలు నుండి దిగుమతి చేసుకుంటుంది.

ప్రపంచ ఉక్కులలో చైనా 415 మిలియన్ల టన్నుల సామర్థ్యంతో మొదటి స్థానంలో ఉండగా, భారత్ 42 మిలియన్ టన్నుల సామర్థ్యంతో ఎని మిదవ స్థానంలో వుంది. ఏకాభిప్రాయంగా భారత్ నుంచి చైనా పోలా 60 మిలియన్ టన్నుల ముడి ఇనుమును దిగుమతి చేసుకుంటుంది. భారత దేశంలో హైగ్రేడ్ గ్రేడ్ ముడి ఇనుము 1140 కోట్ల మిలియన్ల టన్నులు, మాగ్నటైట్ గ్రేడ్ ముడి ఇనుము 1060 కోట్ల మిలియన్ల టన్నులు ఉన్నయి. సుమారుగా 1990 నుంచి 2000 సంవత్సరాల వరకు 16,819 నుంచి 17,717 ముడి ఇనుము నిల్వలు భారత ప్రభుత్వం గుర్తించింది. గడిచిన 2007-08 సంవత్సరములకు గాను Iron ore యగుమతి 100 మి. టన్నులుగా రికార్డు కెక్కింది.

దేశం ఏర్పడకంటా ముందుకు సాగాలంటే ఇనుము ప్రధాన పాత్ర పోషిస్తుంది. అటువంటి స్టీల్ ప్లాంట్ మన నగరంలో ఉండి విశాఖకు మంచి పేరు, వీశియంగా మరియు అంతర్జాతీయంగా గుర్తింపువును తెచ్చింది.

ఇనుము తయారి విధానము:

ముందుగా ముడిపదార్థ రూపంలో వున్న (Raw material)ను "కోక్ ఓవెన్‌లలో కొంత కాలం మండించి, అటు తరువాత 'కోల్' గా మారిన ఇనుమును కూలింగ్ ఛాంబర్‌లో పంపిస్తారు. ఈ ప్రక్రియలో వ్యర్థ పదార్థాలుగా పోయే గాలు, నాఫ్తలిన్, యూరియన్లలను వేరు చేసి వీటిని వెరె ప్లాంటులకు పంపించి, వాటిని మరల ఉపయోగిస్తారు. మొదటి దశలో కూలింగ్ ఛాంబర్‌లో ఇనుమును "బ్లాస్ట్ ఫర్నిచర్"కు పంపించి అక్కడ నుంచి వచ్చిన త్రవరూపంలో వున్న ఇనుమును, మిక్సింగ్ స్కెల్‌కు పంపిస్తారు. ఇక్కడ మూడు రకాల మిక్సింగ్‌లు ప్లాంట్‌లు ఉన్నాయి. వీటి ప్రధానంగా, పెద్దపెద్ద ధూళిలుగా మార్చేది, మొదటిది కాగా, చిన్న చిన్నవిగా మరియు మీడియం సైజులుగా మార్చేది రెండవది, సన్నని వైర్లుగా మార్చేది మూడవది. ఈ ప్రక్రియ ఉపంతరం తయారయిన ఇనుమును వ్యాపార సంస్థలకు మరియు ఇతర ప్రభుత్వ సంస్థలకు, అనుమతుల రూపంలోమ విక్రయిస్తారు.

ఈ విధంగా పై మూడు మిక్సింగ్ ప్లాంట్‌లకు మాత్రమే కాకుండా మొత్తం స్టీల్ ప్లాంటువకు కావలసిన యంత్ర సామగ్రిని కూడ స్వయంగా తానె తయారు చేసుకుంటుంది.

మొదటి దశ వివరంగా (కోక్ ఓవెన్‌లు):

ఇక్కడ ముడి ఇనుము (Raw material)ను ఓవెన్‌లలోకి పంపిస్తారు. ఈ ఓవెన్‌లలో ప్రత్యేకంగా చర్మలకు అనుబడి ముడి ఇనుము కోక్‌గా మారి ఈ కూలింగ్ ఛాంబర్‌కు పంపిస్తారు. ఈ జరిగే విధానం ఈ విధంగా ఉంటుంది. ముందుగా డిజిని కోక్ ఓవెన్ ఓవెన్‌లు లోనికి పీలుస్తారు. ఇందులో బొగ్గు (coke) ను ఓవెన్‌లలోకి పక్క (Top side) నుంచి బొగ్గును లోపలికి ప్రవేశ పెడతారు. ఇలా పడిన ముడి ఇనుమును మొత్తం ఓవెన్‌లు లోంత సమానంగా ఉండే టట్లు ప్రెషర్ కార్‌ను ఉపయోగించి మొత్తం ఓవెన్‌లు లోంత పడేట్లు

చేస్తారు. ఈ ప్రక్రియ జరిగిన తరువాత మిగిలిన మిశ్రమాన్ని సుమారు 1500° నుంచి 1700° వేడి వరకు 19 గంటలు పాటు వేడి చేస్తారు. వేడి చేసినప్పుడు అందులో ఉండే మిగిలిన ఇసుము భాగం కర్బనం తొలగిపోతుంది. ఈ ప్రక్రియలోనే By product గా తారు, నాఫ్తలీన్, యూరియాలు వంటి ఖర్చు పదార్థాలు బయటకు వస్తాయి. వీటిని వేటుకి తెలుసుకొని వేరే వేరే ప్లాంట్లకు పంపిస్తారు.

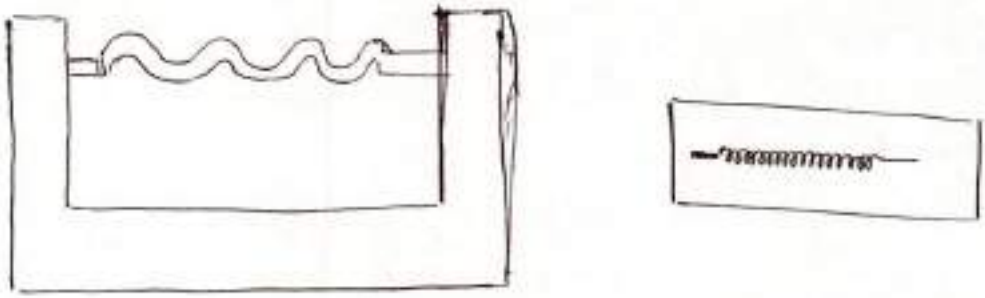
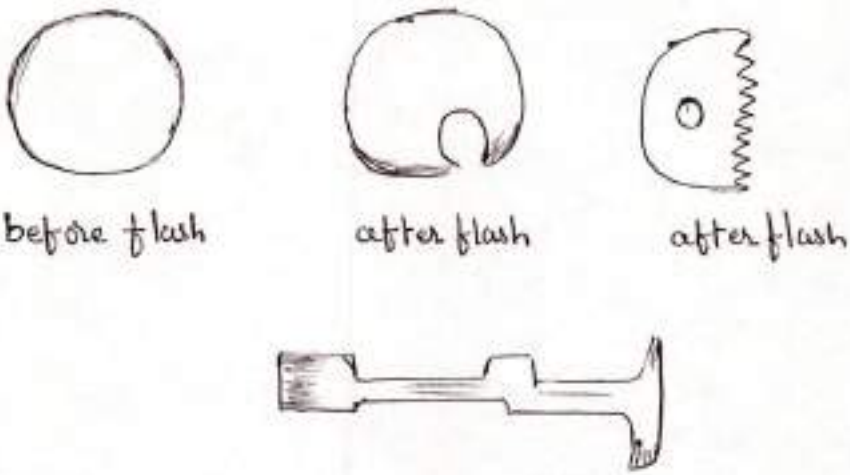
(1) లేత్ మిషన్: కలపతో ఉపయోగపడే కావలసిన రూపంలోకి మార్చుకోవచ్చు.



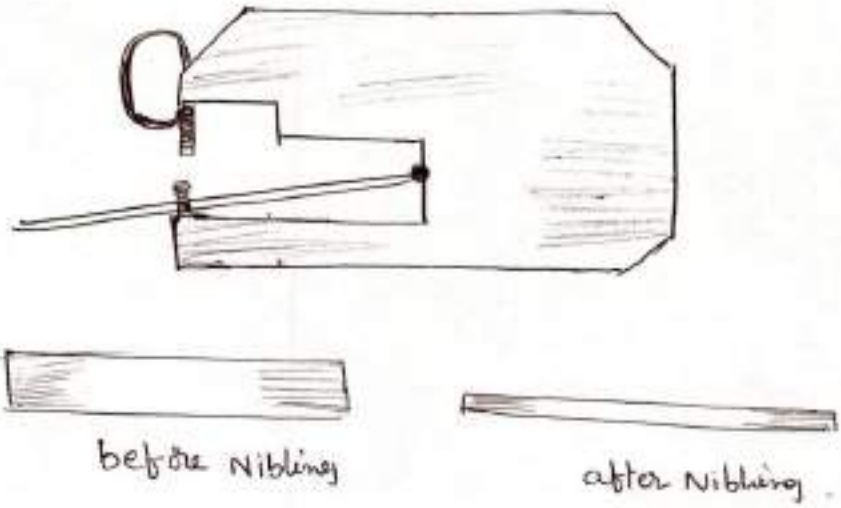
(2) మోల్డింగ్ మిషన్: మిశ్రమం ఉపయోగించి ఉపకరణం మోల్డింగ్ చేయవచ్చు.

(3) మిల్లింగ్ మిషన్: మిశ్రమం ఉపయోగించి డిజైన్ చేసిన భాగాన్ని ప్లాన్ చేస్తారు.

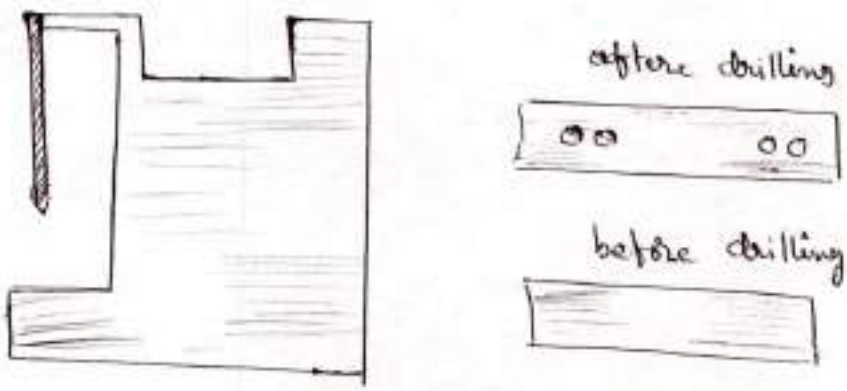


(4) టర్నింగ్ మిషన్: కలపతో రేఖను కత్తిరించి తిప్పి చూస్తారు. ఇలా చాయుడం ద్వారా గుట్టలు తయారు చేస్తారు.

(5) నిబ్లింగ్ మిషన్: ఇనుప రేకును తగు పల్లాగా మార్చడానికి ఉపయోగిస్తారు.



(6) డ్రిల్లింగ్ మిషన్: ఈ యంత్రంతో రేకులకు మరియు ఇనుప రేఖలకు రంధ్రాలు చేయవచ్చు.



స్టీల్ ప్లాంటుకు కావలసిన ఇటు ఇంటి నీటి అవసరాలు గోదావరి మరియు కాటిపల్లి రిజర్వాయరు నుండి వీరికోసం తరువాత స్టీల్ ప్లాంటు ఉపయోగాలను తీరుస్తున్నాయి. సుమారుగా 1500 ఇళ్ళకు మంచి రిజర్వాయరును ఉపయోగించడం జరుగుతున్నాయి.

Study on Steel Plant

Smt. Indiragandhi laid the foundation stone for the steel plant during the year 1971-72. When she was the Prime Minister of India. This prestigious steel plant occupied 25,000 acres of land. This gives livelihood for so many people approximately 16,000 permanent employees and 10,000 contract workers are working in this plant. In the beginning this plant imported the technical neccesacities from the Russia. Later it developed its own technical skills. This plant is using the Godavari waters that in coming from the Rajahmundry. At present the turnover of the steel plant is 8,500 crores and it directly helping one lakh families. The electricity that is used by this plant is produced by its own. It is producing 120 M watts of power in a day. The raw materials which is iron – ore is imported from Kirandole in Orissa and mines are imported from Bailadalla in Madhya Pradesh, Blast furnace, Limestone are imported from Jaggayya Peta in A.P, F.M.S. Limestone is imported from Malaysia, Philippines, Thailand. Blast furnace dolomite is imported from Madharam in A.P, Manganese is imported from Chipurupalli in A.P, Boiler Coal is imported from Orissa.

Q: Sir, I can speak English but not fluently. I have doubts on grammar words like - had going, has going, was, had to. So how to be perfect in that grammar and I didn't have much idea about punctuations also. Could you please give me suggestions?

A: Had going, and has going are not correct expressions. They are wrong. You can say Had been going / has been going. Was = being in the past. Had to = Something you were forced to do in the past.

Suggestions: Read the English newspaper regularly for half an hour to forty five minutes. Watch English news telecasts regularly. Watch as well English movies. This is the best way to improve your English communication.

Pediredla Kanakarao

Q: What is modular transaction? Please explain.

A: Modular means a unit/ a course of study which you choose as your option. Modular transaction = Buying or selling a module, that is, a unit. This is a technical term, which cannot be explained here.

'Will' is being used

Grammar & Usage

Writer

- M. Suresan

In the last lesson we have seen the use of the future simple tense. We have seen that this tense is used to talk about the happenings in the future – both definite and indefinite (కచ్చితమైనవి, అంత కచ్చితం కానివి).

Remember: Shall with I/ we, and will with you, he, she it and they indicate indefinite future (అంత కచ్చితం కాని భవిష్యత్తు), whereas, will with I and we indicates determination (నిశ్చయం), intention (ఉద్దేశం) and promise (మాట ఇవ్వడం). Similarly, shall with you, he, she it and they indicates command (ఆజ్ఞ), duty (విధి) and necessity (అవసరం).

Shall be + ing with I and we, and will be + ing with you, he, she, it and they talk about a continuous action in the future. **eg:** I / we shall be going to Mumbai next week. (a continuous action in the future, but not certain – వచ్చేవారం ఆతను ముంబయి వెళ్తున్నాడు)

eg: He/ she/ it/ they will be coming here in two days. (A continuous action in the future again, but not certain – అతడు / ఆమె/ అది / వాళ్ల రెండు రోజుల్లో ఇక్కడికి వస్తున్నారు)

అర్థమైంది కదా. I and We తో shall be + ing, you, he, she, it, and they తో will be + ing వాడితే అంత కచ్చితం కాకుండా భవిష్యత్తులో ఒక సమయంలో కానసాగుతూండే చర్యను తెలియజేస్తుంది.

However, has been explained in these columns, whether for definite or indefinite actions, 'Will' is being used with all subjects to indicate certain / uncertain future. అయితే గత వారం సంచికలో చెప్పినట్లుగా ఇప్పటి ఇంగ్లండ్, కచ్చితంగా జరిగే చర్యలకు గానీ, కచ్చితం కాని చర్యలకు గానీ అన్ని subject లతో 'will' వాడేస్తున్నారు. 'Shall' వాడకం, అంత ఎక్కువగా లేదు.

THE FUTURE PERFECT TENSE: the forms of the verb in this tense: Will have + Past participle (V3) / shall have + past participle (V3). This talks about an action likely to have been completed by sometime in future. ఈ future perfect tense ను భవిష్యత్తులో ఒక సమయంలో పూర్తయి ఉంటుంది అనుకునే చర్యకు వాడతారు.

eg: a) I / we will have reached Chennai by this time tomorrow. (రేపిపాటికి నేను/ మేము చెన్నై చేరి ఉంటా/ ఉంటాం, అంటే రేపీ సమయానికి నేను/ మేం చెన్నై చేరడం పూర్తవుతుంది.)

b) He/ she/ it (the bus)/ they will have left for Mumbai by this time tomorrow. (అతను/ ఆమె/ అది (ఆ బస్) రేపీ సమయానికి ముంబయికి బయలుదేరి ఉంటాడు/ ఉంటుంది/ ఉంటారు)

c) If this film is released, he will have completed his 100th movie. (ఈ సినిమా విడుదలైతే, అతడు తన వందో సినిమాను పూర్తి చేసి ఉంటాడు.)

d) By this time next year, she will have completed her B. Tech. (వచ్చే సంవత్సరం ఈపాటికి ఆమె తన B. Tech కోర్సును పూర్తిచేసి ఉంటుంది.)

SPOKEN ENGLISH

ఆంగ్లభాషణ 978

ఇప్పుడు future perfect tense ఎలాగో ఉదాహరణలతో చూద్దాం. ఈ tense భవిష్యత్తులో ఒక సమయంలో కానసాగుతూండే చర్యను (an action likely to be continuing at some point of time in future) తెలుపుతుంది.

eg: a) She will have been flying to Delhi by this time tomorrow. (రేపీపాటికి ఆమె విమానంలో ప్రయాణిస్తూ ఉంటుంది.)

b) By this time next year he will have been building his home in Vijayawada. (వచ్చే సంవత్సరం ఈ పాటికి అతను విజయవాడలో ఇల్లు కడుతూ ఉంటాడు)

c) They will have been studying this project by this time next month. (ఈ ప్రాజెక్టును వచ్చే నెల ఈపాటికి వాళ్ళు పరిశీలిస్తూ ఉంటారు.) ఇవి tense లను గురించి వివరాలు. ఇంగ్లండ్ ఇవి చాలా ముఖ్యం. మళ్ళీ ఒకసారి గుర్తు చేసుకుందాం.

1) Am/ is/ are – ఇప్పుడు ఉండటం, క్రమం తప్పకుండా ఉండటం, ఎప్పుడూ ఉండటం. I/ we/ you/ they తో go, he/ she/ it తో goes క్రమం తప్పకుండా జరిగే పనులకు వాడతాం.

2) I తో am + ing, he/ she/ it తో is + ing, we/ you/ they తో are + ing – ఇప్పుడు జరుగుతున్న పనులను తెలుపుతాయి. అయితే ఆ పని జరిగే సమయాన్ని కచ్చితంగా చెపితే, అది భవిష్యత్తులో జరిగే పనులను తెలుపుతాయి. eg: He is coming here tomorrow. (అతడు రేపిక్కడికి వస్తున్నాడు - కచ్చితంగా). They are leaving for Delhi next week (వాళ్ళు వచ్చే వారం ఢిల్లీ వెళ్తున్నారు - కచ్చితంగా.)

Q: Sir, please change this sentence in Passive voice: "Why is your son not doing homework?"

A: Why is the homework not being done by your son?

A.Madhu

Q: Sir, I read English newspapers regularly to improve my communication, but I feel the language is too formal to speak. Then I started watching English movies but I am unable to follow their American slang. So please suggest me some books or any other methods through which I could improve my English communication while speaking in casual/ Informal discussions.

A: Keep reading the English newspapers though the language is formal. Read short story books in English and continue watching English movies. All English movies have sub-titles in English, and you gain a lot of knowledge by reading them. As far as possible speak in English to people who know English. Practice speaking English and it will certainly improve your communication skills.

We have seen the uses of tenses. Tenses in English are very important unlike in Telugu. The more you know about them the better will you be able to speak. Now let us look at the following:

Remember the uses of do, does and did. 'Do' is used with I, we, you and they with 'not' and in questions. I/ we/ you/ they అను not తోగాని questions అతో గాని వాడినప్పుడు do + I DW అవుతుంది)

eg: a) I/ We/ You/ They go there every day X (negative – with 'not) I/ We/ You/ They do not go there every day.

Q: Do I/ we/ you/ they go there every day? / When do I go there? Where do I go? Etc.

'Does' is used with he/ she/ it with 'not' and in questions. (He /she / it అను not తో గాని, ప్రశ్నలో గాని వాడినప్పుడు 'does' వస్తుంది)

b) He/ she/ it (the train) goes there once a week X He/ she/ it does not go there once a week

Q: Does he/ she/ it (the train) go there once a week?/ When does he/ she/ it go there?/ Where does he/ she/ it go there? Etc. (Past tense form అంటే V3 ని not తోగాని, questions లో గాని వాడినప్పుడు, did + present tense (V1) వస్తుంది - దీన్ని అన్ని subjects తో వాడతాం).

c) I/ we/ you/ they/ he/ she/ it went there yesterday X I/ we/ you/ he/ she/ it/ they did not go there yesterday.

Q: Did I/ we/ you/ he/ she/ it/ they go there yesterday? / When did I/ we/ you/ they/ he/ she/ it go there? Where did I/ we/ you/ they/ he/ she/ it go there? Etc. (Did అన్ని సబ్జెక్టులతో వాడతాం – I / we / you / he / she / it and they తో)

So you see that when the I[st] Doing Word (go, sing, walk, talk, etc. – with I/ we/ you/ they) is used with 'not' and in questions, we get 'do' extra, when the II[nd] Doing Word (goes, sings, walks, talks, etc – with he/ she/ it) is used with 'not' and in questions we get 'does' extra and when we use the Past Doing word (went, sang, walked, talked, etc) with 'not' and in questions we get 'did' extra.

Remember too that when the II[nd] Doing Word used with 'not' and in questions, we get does + I[st] Doing Word, and when the Past Doing Word is used with 'not' and in questions, we get did + I[st] Doing Word.

eg: Go (with not and in questions) = do go; 'goes' (with not and in questions) = does go and when the Past Doing Word (with not and in questions) = did go. This should be remembered clearly.

Practice the use of do, does and did thoroughly. ఇది తెలుసుకుంటే, మీ ఇంగ్లీష్ ప్రతిభను ఈ కింది వాటిని ఆంగ్లంలో రాయండి.

Q: పదో తరగతి సమానార్థకాల మధ్య usage భేదాలను సోదాహరణంగా వివరించగలరు.

1. (A person's) Temperament & Disposition
2. (Law) argument & Contention
3. (Commence) Deal & Bargain & Negotiate
4. Over a period of time & At some point of time.
5. Line up & Queue up
6. Distinct (from) & different (from)

A: 1) Temperament is the nature of a person or an animal which affects their nature permanently. It is the mental, physical and emotional characteristics of a person. Disposition, on the other hand, is the mood and attitude of a person.

2) An argument is much broader than a contention. An argument is a set of opinions expressed on a certain topic. A contention, on the other hand, is a single point that you seriously argue about.

eg: a) There was an argument between the two. This means that they discussed several points relating to the topic.

b) His contention was that they were not clever, whereas his friend contended that they were very clever.

3) A deal is an agreement reached between two or more persons.

Eg: They entered into a deal according to which one of them will supply goods to the other. Bargain, on the other hand, is something that somebody offers at a lower price than its true value. Though the bike's price was Rs 50,000/- he bargained and got it for a lower price. Negotiate means, a formal discussion among two or more people about at the end of which they may or may not reach an agreement.

4) Over a period of time = after the passage of some time.

eg: Over a period of time he grew into a very efficient manager.

At some point of time = at a particular point of time, say at a particular time, day, etc.

eg: At some point of time, he agreed to what his elders asked him to do.

5) Line-up = a group of people assembled to form a team. **eg:** A number of changes are expected in the line-up of the team for the next week's game.

★ Queue up, on the other hand means, a number of people standing in a line to get something. **eg:** They queued up for the film tickets.

6) Distinct = Clear, noticeable.

eg: There is a distinct smell of sweet smelling flowers here.

★ Different = not the same.

eg: She wears a different dress every day.

In some of our last lessons we have seen the present tense and the past tense forms of the verb. Now we are going to see the future tense forms (భవిష్యత్ను తెలిపేవి). Future tense talks of what might happen in the future. (ఈ tense భవిష్యత్తులో జరగబోయేది చెబుతుంది.) The future tense forms begin usually with 'Shall' and 'Will'.

a) Shall is used with 'I' and 'we', and 'will' is used with you, he, she, it and they to indicate indefinite future.

eg: I/ we shall go there the next week (not certain / definite – may or may not go)

He/ she/ it and they will go there the next week (not certain again – may or may not go)

Grammar & Usage

'Will' is being used

Writer

- M. Suresan

In the last lesson we have seen the use of the future simple tense. We have seen that this tense is used to talk about the happenings in the future – both definite and indefinite (కచ్చిత మైనవి, అంత కచ్చితం కానివి).

Remember: Shall with I/ we, and will with you, he, she it and they indicate indefinite future (అంత కచ్చితం కాని భవిష్యత్), whereas, will with I and we indicates determination (నిశ్చయం), intention (ఉద్దేశం) and promise (మాట ఇవ్వడం). Similarly, shall with you, he, she it and they indicates command (ఆజ్ఞ), duty (విధి) and necessity (అవసరం).

Shall be + ing with I and we, and will be + ing with you, he, she, it and they talk about a continuous action in the future. **eg:** I / we shall be going to Mumbai next week. (a continuous action in the future, but not certain – వచ్చేవారం అతను ముంబయి వెళ్తున్నాడు.

eg: He/ she/ it/ they will be coming here in two days. (A continuous action in the future again, but not certain – అతడు / ఆమె/ అది / వాళ్ళు రెండు రోజుల్లో ఖచ్చితంగా వస్తున్నారు.)

ఇక్కడ వరకూ I and We తో shall be + ing, you, he, she, it, and they తో will be + ing వాడితే అంత కచ్చితం కాకుండా భవిష్యత్తులో ఒక సమయంలో జరుగుతూండే చర్యను తెలియజేస్తుంది.

However, has been explained in these columns, whether for definite or indefinite actions, 'Will' is being used with all subjects to indicate certain / uncertain future. అయితే గత వారం సంచికలో చెప్పినట్టుగా ఇవ్వాటి ఖచ్చితంగా, కచ్చితంగా జరిగే చర్యలకు గానీ, కచ్చితం కాని చర్యలకు గానీ అన్ని subject లతో 'will' వాడొచ్చున్నారు. 'Shall' వాడకం, అంత ఎక్కువగా లేదు.

THE FUTURE PERFECT TENSE: the forms of the verb in this tense: Will have + Past participle (V3) / shall have + past participle (V3). This talks about an action likely to have been completed by sometime in future. ఈ future perfect tense ను భవిష్యత్తులో ఒక సమయంలో పూర్తయి ఉంటుంది అనుకునే చర్యకు వాడతారు.

eg: a) I / we will have reached Chennai by this time tomorrow. (రేపిపాటికి నేను/ మేము చెన్నై చేరి ఉంటా/ ఉంటాం అంటే రేపీ సమయానికి నేను/ మేం చెన్నై చేరడం పూర్తవుతుంది.)

b) He/ she/ it (the bus)/ they will have left for Mumbai by this time tomorrow. (అతను/ ఆమె/ అది (ఆ బస్) రేపీ సమయానికి ముంబయికి బయలుదేరి ఉంటాడు/ ఉంటుంది/ ఉంటారు)

c) If this film is released, he will have completed his 100th movie. (ఈ సినిమా విడుదలైతే, అతను తన వందో సినిమాను పూర్తి చేసి ఉంటాడు.)

d) By this time next year, she will have completed her B. Tech. (వచ్చే సంవత్సరం ఈపాటికి ఆమె తన B. Tech కోర్సును పూర్తిచేసి ఉంటుంది.)

ది future perfect tense అంటాం.

ఇప్పుడు future perfect continuous tense ను చూద్దాం. ఈ tense భవిష్యత్తులో ఒక సమయంలో కొనసాగుతూండే చర్యను (an action likely to be continuing at some point of time in future) తెలుపుతుంది.

eg: a) She will have been flying to Delhi by this time tomorrow. (రేపీపాటికి ఆమె దిల్లీ విమానంలో ప్రయాణిస్తూ ఉంటుంది.)

b) By this time next year he will have been building his home in Vijayawada. (వచ్చే ఏడాది తను పోటికి అతను విజయవాడలో ఇల్లు కడుతూ ఉంటాడు)

c) They will have been studying this project by this time next month. (ఈ ప్రాజెక్టును వాళ్ళు వెలువడబోయే నాళ్ళు పరిశీలిస్తూ ఉంటారు.) ఏదీ tense లను గురించి వివరాలు ఆంగ్లంలో ఇవి చాలా ముఖ్యం. మళ్ళీ ఒకసారి గుర్తు చేసుకుందాం.

1) Am/ is/ are – ఇప్పుడు ఉండటం. క్రమం తప్పకుండా ఉండటం, ఏప్పుడూ ఉండటం. I/ we/ you/ they తో go, he/ she/ it తో goes క్రమం తప్పకుండా జరిగే పనులకు వాడతాం.

2) I తో am + ing, he/ she/ it తో is + ing, we/ you/ they తో are + ing – ఇప్పుడు జరుగుతున్న పనులను తెలుపుతాయి. అయితే పని జరిగే సమయాన్ని కచ్చితంగా చెబితే, అది భవిష్యత్తులో జరిగే పనులను తెలుపుతాయి. eg: He is coming here tomorrow. (అతను రేపెప్పుడికి వస్తున్నాడు - కచ్చితంగా) They are leaving for Delhi next week (వాళ్ళు వచ్చే వారం దిల్లీ వెళ్తున్నారు - కచ్చితంగా)

☆ Sir, nowadays there is more usage of passive forms of sentence in English grammar/terminology tell me about that usage and where passive forms can not be written?

- raqeebart01@gmail.com

A: You are mistaken. The trend now is to use more active forms than passive forms. Only when the doer of an action is not known or when we refer to things in general, do we used passive forms. Otherwise the trend now is to use only active forms. The usage now is: Please do not smoke, instead of smoking is strictly prohibited, Please do not cut across the lawn, etc.

Q: కింది పదాల అర్థాలు వివరించగలరు.

1) Condition & Stipulation

2) Go back on (a promise) & Back out (of a promise)

3) Crispy & Crunchy

A: 1) 'Condition' is a rule or a decision you must agree to, as a part of a contract or an agreement.

★ Stipulation = stating clearly and firmly that something must be done or how it must be done.

2) Go back on a promise = Not to keep one's promise = back out of a promise. - No difference.

3) Crispy = hard and dry in a pleasant way.

Eg: A biscuit is crunchy if when we eat it, we feel it is hard and dry (fresh).

★ 'Crunchy', on the other hand, refers to the sound that is made when we eat something crispy.

Q: Sir, please translate the following sentence into Telugu.

A: It's time we started work hard - Wrong. The correct sentence is: It's time we started working hard = మనం కష్టపడి పనిచేయాల్సిన సమయం ఎప్పుడో వచ్చేసింది/ ఇంతకు ముందే మనం కష్టపడటం ప్రారంభించాల్సింది.

Q: What are the differences among: Filter water, Distilled water, Mineral Water.

A: Filter water = water filtered to make it free from solid impurities.

★ **Distilled water** = water unmixed with any other substance, solid, liquid, or gas.

★ **Mineral water** = Natural water with some salts dissolved in it, sold as drinking water. However in India, mineral water sold in bottles is purified water to which certain salts and mineral are added.

Q: Sir, please give me the meanings of the following Idioms / Phrases in Telugu with one example for each.

1. Tone and Tenor 2. Walk a tight rope

3. Between the lines

A: 1) 'Tone and tenor' is not a Standard English expression. Tone means, the quality of the voice of a person, and tenor means, the highest level of a man's voice. You can take the meaning of tone and tenor as what you wish to say and the voice in which you say it. But this expression is not accepted as correct (మనం మాట్లాడే తీరు, ధోరణి).

2) To be very cautious / to do something in such a way that it does not hurt others (చాలా జాగ్రత్తగా ఉండటం/ ఇతరుల మనసును నొప్పి కలగకుండా ఏదైనా మాట్లాడటం/ చేయడం).

Eg: You have to walk a tight rope in a quarrel between two of your friends.

3) To try to understand the real meaning behind what a person says / to understand something that a person does not say directly (ఒకరి మాటల్లోని గూఢార్థం).

Eg: To understand what he wanted to say, I had to read between the lines.

'Improbable present' r

SPOKEN ENGLISH
ఆంగ్లభాషణ 975

K. Venugopal Varma

Q: Respected sir, please explain about "if conditions" exclusively when we have to use them.

A: There are three 'if/ conditional clauses'.

1) **Probable present:** What is stated in this condition may happen. **Eg:** If he comes here his mother will be happy.

There are two clauses here: 1) The 'if' clause and the main clause, 'his mother will be happy'. This sentence means that there is a chance of his coming here, and if he comes here, his mother will be happy.

2. **Improbable present:** The second condition is 'Improbable present'. In this case there is no chance of anything happening in the PRESENT. **Eg:** If he were here I would discuss the matter with him. Note that 'be' is followed by 'were'. There is no chance of his coming here and my discussing the matter with him.

★ Sometimes the past verb form is also used. **Eg:** If my father gave me the money, I would buy a bike. This means there is no chance, at present, of his father giving him the money and his buying a bike.

3. **Imaginary past:** The third condition is imaginary past. What is stated here is past and in the past it did not happen.

Eg: If he had given his daughter the money, she would have bought a car. This means, he did not give her money, and she did not buy a car - this refers to a past situation which did not happen.

Q: Sir please explain all the following sentences what is the difference among them and give some other examples for the given sentences.

1. As soon as we reached the station the train left.
2. No sooner did he getup to deliver his speech than the hall began to resound with the cheers.
3. We had scarcely reached the school when the bell rang.

A: Please note 'as soon as' = no sooner did + present tense, ... than = scarcely when **Eg:** As soon as he came here he started working = No sooner did he come/ had he come here than he started working = Scarcely had he come here when he started working. As soon as = no sooner than = scarcely when = immediately after.

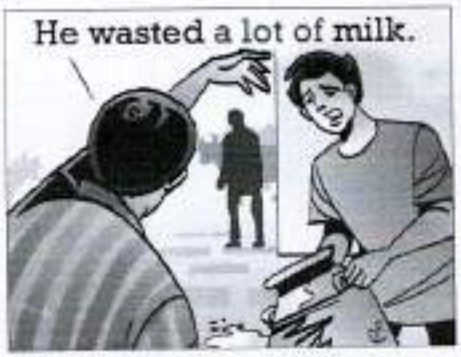
GRAMMAR AND USAGE

In the last lesson we have seen countable and uncountable nouns. We have also seen more and most are the comparative and superlative degrees of both the countable and uncountable nouns. (కిందటి పాఠంలో మనం అర్థంలో కొన్ని nouns uncountable అంటే లెక్కపెట్టలేనివని, వాటికి plurals ఉండవని తెలుసుకున్నాం.)



eg: a) Most students in the class are clever. (Superlative). More students in that section are cleverer than those in this section (Comparative). This is for countables.

★ More and most are the comparative and superlative degrees of uncountables too. (Uncountable కు కూడా more and most comparative and superlative degrees)

eg: a) Most of the milk was wasted (Uncountable - superlative) (ఇది లెక్కపెట్టలేనిది - దానికి superlative degree ఇది).

b) More sugar is there in that vessel than in this vessel (Uncountable – comparative) (చక్కెర కూడా లెక్కపెట్టలేనిది - ఇది comparative degree)

★ Similarly 'some' and 'a lot of' are used both for countables and uncountables. (ఇలాగే 'some' and 'a lot of' countables కు, uncountables కు రెండింటికీ వాడతాం).

a) Some books are on the table (Countable) (పుస్తకాలు అంటే లెక్కపెట్టేవి కదా)

b) There is some milk in the glass (Uncountable) (పాలు అనేవి లెక్కపెట్టలేనివి).

c) I have some friends in Delhi (Countable) (నాకు కొంతమంది స్నేహితులు ఉన్నారు ఢిల్లీలో. ఇది లెక్కపెట్టగలిగింది.)

d) He wasted a lot of milk (Uncountable) (అతను చాలా పాలు వృథా చేశాడు - లెక్కపెట్టలేనిది)

e) Most books in the shop are high priced (Countable) (ఆ దుకాణంలో చాలా పుస్తకాల ధర అతి ఎక్కువ - లెక్క పెట్టగలిగినవి)

f) Most rice grown here is exported. (Uncountable) (ఇక్కడ పెరిగే చాలా వరి ఇతర దేశాలకు ఎగుమతి చేస్తారు - లెక్కపెట్టలేనిది)

GRAMMAR & USAGE

In the last lesson we have seen the uses of little, a little, very little, the little and few, a few, very few and the few. Now we are going to see the comparative and superlative degrees of these adjectives. (దీంటి పాఠంలో మనం little, a little, very little, Few, a few, Very few, and the few ఉపయోగాలు చూశాం.)

For a large quantity of uncountable, the comparative and the superlative degrees are more and most (చాలా పెద్ద మొత్తంలో ఉన్న లెక్కపెట్టలేని వాటికి comparative, superlative లు more and most.) Similarly for a large number of countable, the comparative and superlative are more and most. (లెక్కపెట్టే వాటికి కూడా comparative, superlative లు కూడా more and most.)

Examples: Uncountable:

a) There is more sugar in this bag than in that bag (Uncountable). (ఈ బస్తాలో ఆ బస్తా కంటే ఎక్కువ చక్కెర ఉంది - లెక్కపెట్టలేనిది)

b) This bag contains the most sugar of all the bags here (Uncountable) (ఈ బస్తాలో ఇక్కడున్న అన్ని బస్తాల కంటే ఎక్కువ చక్కెర

'Will' is being usec

Writer

- M. Suresan

In the last lesson we have seen the use of the future simple tense. We have seen that this tense is used to talk about the happenings in the future – both definite and indefinite (కచ్చితమైనవి, అంత కచ్చితం కానివి).

Remember: Shall with I/ we, and will with you, he, she it and they indicate indefinite future (అంత కచ్చితం కాని భవిష్యత్తు), whereas, will with I and we indicates determination (నిశ్చయం), intention (ఉద్దేశం) and promise (మాట ఇవ్వడం). Similarly, shall with you, he, she it and they indicates command (ఆజ్ఞ), duty (విధి) and necessity (అవసరం).

Shall be + ing with I and we, and will be + ing with you, he, she, it and they talk about a continuous action in the future. **eg:** I / we shall be going to Mumbai next week. (a continuous action in the future, but not certain – వచ్చేవారం అతను ముంబయి వెళ్తున్నాడు.

eg: He/ she/ it/ they will be coming here in two days. (A continuous action in the future again, but not certain – అతడు / ఆమె/ అది / వాళ్ళ రెండు రోజుల్లో ఇక్కడికి వస్తున్నారు.)

బహుశా అందరికీ తెలిసి ఉండవచ్చు. I and We తో shall be + ing, you, he, she, it, and they తో will be + ing వాడితే అంత కచ్చితం కాకుండా భవిష్యత్తులో ఒక సమయంలో కొనసాగుతూండే చర్యను తెలియజేస్తుంది.

However, has been explained in these columns, whether for definite or indefinite actions, 'Will' is being used with all subjects to indicate certain / uncertain future. అయితే గత వారం సంచికలో చెప్పినట్లుగా ఇప్పటి అంగ్లంలో, కచ్చితంగా జరిగే చర్యలకు గానీ, కచ్చితం కాని చర్యలకు గానీ అన్ని subject లతో 'will' వాడేస్తున్నారు. 'Shall' వాడకం, అంత ఎక్కువగా లేదు.

THE FUTURE PERFECT TENSE: the forms of the verb in this tense: Will have + Past participle (V3) / shall have + past participle (V3). This talks about an action likely to have been completed by sometime in future. ఈ future perfect tense ను భవిష్యత్తులో ఒక సమయంలో పూర్తయి ఉంటుంది అనుకునే చర్యను వాడతారు.

eg: a) I / we will have reached Chennai by this time tomorrow. (రేపీపాటికి నేను/ మేము చెన్నై చేరి ఉంటా/ ఉంటాం. అంటే రేపీ సమయానికి నేను/ మేం చెన్నై చేరడం పూర్తవుతుంది.)

b) He/ she/ it (the bus)/ they will have left for Mumbai by this time tomorrow. (అతను/ ఆమె/ అది (ఆ బస్) రేపీ సమయానికి ముంబయికి బయలుదేరి ఉంటారు/ ఉంటుంది/ ఉంటాయి)

c) If this film is released, he will have completed his 100th movie. (ఈ సినిమా విడుదలైతే, అతడు తన వందో సినిమాను పూర్తి చేసి ఉంటాడు.)

d) By this time next year, she will have completed her B. Tech. (వచ్చే సంవత్సరం ఈ టైమ్‌కి ఆమె తన B. Tech కోర్సును పూర్తిచేసి ఉంటుంది.)

SPOKEN ENGLISH

దీన్ని future perfect tense అంటాం.

ఇప్పుడు future perfect continuous tense ను చూద్దాం. ఈ tense భవిష్యత్తులో ఒక సమయంలో కొనసాగుతూండే చర్యను (an action likely to be continuing at some point of time in future) తెలుపుతుంది.

eg: a) She will have been flying to Delhi by this time tomorrow. (రేపీపాటికి ఆమె దిల్లీ విమానంలో ప్రయాణిస్తూ ఉంటుంది.)

b) By this time next year he will have been building his home in Vijayawada. (వచ్చే ఏడాది ఈ పాటికి అతను విజయవాడలో ఇల్లు కడుతూ ఉంటాడు)

c) They will have been studying this project by this time next month. (ఈ ప్రాజెక్టును మన్నె నెల ఈపాటికి వాళ్ళు పరిశీలిస్తూ ఉంటారు.) ఐదు tense లను గురించి వివరాలు ఆంగ్లంలో ఇవి రాబోయే ముక్కల్లో మళ్ళీ ఒకసారి గుర్తు చేసుకుందాం.

1) Am/ is/ are – ఇప్పుడు ఉండటం, ప్రతిరోజూ తప్పకుండా ఉండటం, ఎప్పుడూ ఉండటం. I/ we/ you/ they తో go, he/ she/ it తో goes ప్రతిరోజూ తప్పకుండా జరిగే పనులకు వాడతాం.

2) I తో am + ing, he/ she/ it తో is + ing, we/ you/ they తో are + ing – ఇప్పుడు జరుగుతున్న పనులను తెలుపుతాయి. అయితే పని జరిగే సమయాన్ని కచ్చితంగా చెప్పితే, అవి భవిష్యత్తులో జరిగే పనులను తెలుపుతాయి. eg: He is coming here tomorrow. (అతడు రేపిక్కడికి వస్తున్నాడు - కచ్చితంగా). They are leaving for Delhi next week (వాళ్ళు వచ్చే వారం దిల్లీ వెళ్తున్నారు - కచ్చితంగా.)

We have seen the uses of tenses. Tenses in English are very important unlike in Telugu. The more you know about them the better will you be able to speak. Now let us look at the following:

Remember the uses of do, does and did. 'Do' is used with I, we, you and they with 'not' and in questions. I/ we/ you/ they అను not తోగాని questions లలో గాని వాడినప్పుడు do + I DW అవుతుంది)

eg: a) I/ We/ You/ They go there every day X (negative – with 'not) I/ We/ You/ They do not go there every day.

Q: Do I/ we/ you/ they go there every day? / When do I go there? Where do I go? Etc.

'Does' is used with he/ she/ it with 'not' and in questions. (He /she / it అను not తో గాని, ప్రశ్నల్లో గాని వాడినప్పుడు 'does' వస్తుంది)

b) He/ she/ it (the train) goes there once a week X He/ she/ it does not go there once a week

Q: Does he/ she/ it (the train) go there once a week?/ When does he/ she/ it go there?/ Where does he/ she/ it go there? Etc. (Past tense form అంటే V3 ని not తోగాని, questions లో గాని వాడినప్పుడు did + present tense (V1) వస్తుంది - దీన్ని అన్ని subjects తో వాడాలి).

c) I/ we/ you/ they/ he/ she/ it went there yesterday X I/ we/ you/ he/ she/ it/ they did not go there yesterday.

Q: Did I/ we/ you/ he/ she/ it/ they go there yesterday? / When did I/ we/ you/ they/ he/ she/ it go there? Where did I/ we/ you/ they/ he/ she/ it go there? Etc. (Did ఉన్న సబ్జెక్టులతో వాడాలి – I / we / you / he / she / it and they తో)

So you see that when the I[st] Doing Word (go, sing, walk, talk, etc. – with I/ we/ you/ they) is used with 'not' and in questions, we get 'do' extra, when the II[nd] Doing Word (goes, sings, walks, talks, etc – with he/ she/ it) is used with 'not' and in questions we get 'does' extra and when we use the Past Doing word (went, sang, walked, talked, etc) with 'not' and in questions we get 'did' extra.

Remember too that when the II[nd] Doing Word used with 'not' and in questions, we get does + I[st] Doing Word, and when the Past Doing Word is used with 'not' and in questions, we get did + I[st] Doing Word.

eg: Go (with not and in questions) = do go; 'goes' (with not and in questions) = does go and when the Past Doing Word (with not and in questions) = did go. This should be remembered clearly.

Practice the use of do, does and did thoroughly. అది తెలుపుతుంది. మీ ఆంగ్ల ప్రతిభను ఈ కింది వాటిని ఆంగ్లంలో రాయండి.

1) నువ్వెప్పుడికి రోజూ వెళ్తావా

eg: a) I/ We/ You/ They go there every day X (negative – with 'not') I/ We/ You/ They do not go there every day.

Q: Do I/ we/ you/ they go there every day? / When do I go there? Where do I go? Etc.

'Does' is used with he/ she/ it with 'not' and in questions. (He /she / it ఉదు not తో గాని ప్రశ్నలో గాని వాడినప్పుడు 'does' వస్తుంది)

b) He/ she/ it (the train) goes there once a week X He/ she/ it does not go there once a week

Q: Does he/ she/ it (the train) go there once a week?/ When does he/ she/ it go there?/ Where does he/ she/ it go there? Etc. (Past tense form అంటే V3 ని not తోగాని, questions లో గాని వాడినప్పుడు, did + present tense (V1) వస్తుంది - దీన్ని అన్ని subjects తో వాడాలి).

c) I/ we/ you/ they/ he/ she/ it went there yesterday X I/ we/ you/ he/ she/ it/ they did not go there yesterday.

Q: Did I/ we/ you/ he/ she/ it/ they go there yesterday? / When did I/ we/ you/ they/ he/ she/ it go there? Where did I/ we/ you/ they/ he/ she/ it go there? Etc. (Did ను నమ్మకులతో వాడాలి – I / we / you / he / she / it and they తో)

So you see that when the I[st] Doing Word (go, sing, walk, talk, etc. – with I/ we/ you/ they) is used with 'not' and in questions, we get 'do' extra, when the II[nd] Doing Word (goes, sings, walks, talks, etc – with he/ she/ it) is used with 'not' and in questions we get 'does' extra and when we use the Past Doing word (went, sang, walked, talked, etc) with 'not' and in questions we get 'did' extra.

Remember too that when the II[nd] Doing Word used with 'not' and in questions, we get does + I[st] Doing Word, and when the Past Doing Word is used with 'not' and in questions, we get did + I[st] Doing Word.

eg: Go (with not and in questions) = do go; 'goes' (with not and in questions) = does go and when the Past Doing Word (with not and in questions) = did go. This should be remembered clearly.

Practice the use of do, does and did thoroughly. అది తెలుసుకుంది. మీ ఆంగ్ల ప్రతిభను. ఈ పిండివాటిని ఆంగ్లంలో రాయండి.

Q: Respected sir, what is the difference between the following?

1) It has been decided to cancel the festivities that were to be held on Friday, March 9, 2018.

2) It has been decided to cancel the festivities that are to be held on Friday, March 9, 2018.

A: It has been decided to cancel the festivities that are to be held on Friday March 9, 2018 – This is correct, because the date refers to the future. Moreover the verb in the first clause is in the present tense.

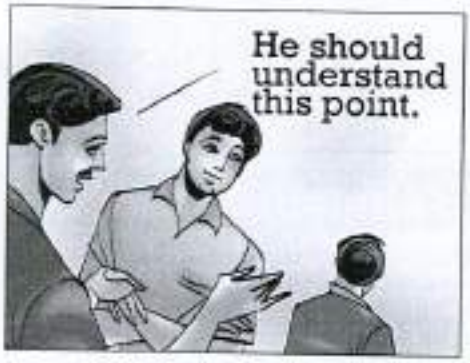
'Will' is being use



Grammar & Usage

In the last week's lesson we saw the differences between statements and questions, and the two types of questions – 'Wh' and 'Non-wh' questions.

We have seen in the past lessons the verbs of six kinds – 1) the 'be' forms, 2) the 'be' form + the 'ing' form, 3) the 'be' form + past participle (V3) (passive voice), 4) have/ has/ had/ shall have/ should have, etc. + Past participle (V3) 5) The doing words (eg: Give, gives, gave, etc.) 6) Shall/ should/ will/ would/ can etc. + the I[st] Doing word.

eg: Shall go, will come, can sing, etc. (6 రకాల verbs గుర్తున్నాయి కదా వాటిని మరిచిపోకుండా ఉంటే, మన ఇంగ్లిష్ లో తప్పులు ఉండవు. అయితే వాటి ఉపయోగాలు తెలుసుకోవడం కూడా ముఖ్యమే).

We have seen the uses of 'do', 'does' and 'did'. We are now going to see the uses of the other verbs like, shall, should, will, would, can, could, may, might, must, have to, has to, ought to, need, dare, etc.

We have already seen that the verbs, shall with I and we, and will with you, he, she, it and they talks about indefinite future (అంత కచ్చితం కాని భవిష్యత్). However, in the present day English, 'Will' is being used with all subjects to indicate both indefinite and definite future (అయితే నాను, నాను Will వాడేస్తున్నారు, అన్ని subjects తో. కచ్చితమైన, కచ్చితం కాని భవిష్యత్తుకు). Shall with you, he, she, it and they is used to express duties (విధులు), commands (ఆజ్ఞలు) and necessity (అవసరాలకు), mostly in judicial language and government rules (ప్రభుత్వ కోర్టు భాషలో). కష్టమేమీ verbs అంటే should, would, can, could, may, might, must, need, etc., ఉపయోగం తెలుసుకోబోతున్నాం.

a) Should is the past form of Shall. However, in the present day English, even for shall, would is being used as its past form, especially in the Indirect Speech. (Should ను shall కు past form గా వాడటం అంటే గతంలో he, she, it and they తో అన్నా గాని, విధిగా గాని, అవసరంగా గాని చేయాల్సిన పనులేవైనా ఉంటే, అవి చెప్పడానికి shall వాడటం.) అందుకే ప్రస్తుత ఉత్తర్వుల్లో గాని, కోర్టు ఆజ్ఞల్లో గాని, he, she, it and they తో shall వాడరాదు.

eg: I think I shall help him – Indirect speech: I thought I would help him. (ఇది అంత కచ్చితం కాదు).

'Would' is the past form (V2) of will. That is, if will is used as the future from the present, would is used as the past form of will to express future from the past.

He is sure that his sisters will help him. The past form for this is, He was sure his sister would help him.

'Should' is the past form of shall. eg: He shall understand this point. The past form for this is: He should understand this point.

eg: She is sure that her husband will surely help her brother. The past form for this is: She was sure that her husband would surely help her brother.

ఇంకో విషయం: Should, must, have to (with I/ we/ you and they), has to (with he/ she/ it and they) expresses commands, duties and necessity (ఆజ్ఞలు, విధులు, అవసరాలు).

eg: a) You must / should /have to be in the office from 10 to 6. (Order)

b) I must / should /have to be present at office from 10 to 6 or I will be punished (Duty)

c) I must/ should/ have to rush to the station, or I will miss the train. (Necessity)

d) He/ she/ the train (it) has to be here by 5 o'clock, but he/she/the train (it) is late.

Study this carefully and understand the uses of shall, should, will, would, must, have to, has to. More in the next week's issue.

In the last lesson we have learnt the uses of do, does and did. Unlike in Telugu, in English the order of words in a question is different from the order of a statement. ఆంగ్లంలో ఒక విషయం చెప్పే వాక్యానికీ, ప్రశ్నకూ, మాటల వరుసలో చాలా తేడా ఉంటుంది.

Look at the following: Karthik comes here every day. This is a statement (ఇది ఒక విషయాన్ని చెప్పే వాక్యం). Look at the order of words in the statement (దీంలో మాటల వరుస చూడండి): Karthik (subject) + comes (Verb). So, the order of words in the statement is: Subject (sub) + Verb. అంటే ఒక విషయం చెప్పే వాక్యంలో subject ముందు, Verb తర్వాత వస్తాయి.

a) Now look at the order of words in a question: Is he your friend?

The order of words here : Verb + Subject

b) Now look at the next question and the order of words in it: Does he come here every day?

Order of words in this question: Helping Verb + Sub + Main Verb. (When there are two or more words in a verb, the first verb is called the Helping Verb - in this question it is 'does', and the other word is called the main verb – in this question, the main verb is 'come'. రెండు అంత కంటే ఎక్కువ మాటలున్న verb లో మొదటి మాటను Helping verb అంటాం. ఆ తర్వాత ఉండే మాటను గానీ, మాటలను గానీ main verb అంటాం. ఇది తప్పక గుర్తుంచుకోవాల్సిన విషయం.)

These two questions (a) and (b) are Non-wh questions, that is, they don't begin with the words, what, when, who, whose, whom, how and why. Though 'why' and 'how' do not begin with 'Wh' let us call them 'wh' words too. We usually use these words for asking questions. There are, however, questions which begin with 'Wh' words too: Let us look at them:

c) Where were you yesterday?

Look at the order of words here: Where ('wh' word) + were (verb) + you (Sub)

d) Where did he go?

Here, the order of words is: Where ('Wh' word) + did (helping verb) + he (sub) + go? (main verb)

Also remember: The answers to 'Non-wh' questions is yes or no. But the answers to 'Wh' questions is always a statement.

eg: 1) Are they coming today? Answer: Yes (they are). No (They are not)

The answer to 'wh' question is always a statement.

eg: a) When are they coming? Answer: They are coming tomorrow. b) What are they doing? Ans: They are studying.

★ మూడు వద్దా 'Wh' మాటలేని ప్రశ్నలకు yes / no అని సమాధానం వస్తుంది. కానీ 'Wh' questions కు జవాబు ఎప్పుడూ ఒక వాక్యం.

★ Whether a question is a 'Non-wh' question or 'Wh' question, the IMPORTANT POINT to remember is: the verb always comes before the subject, or the subject comes in between the helping verb and the main verb. This is very important in English. (అంటే మనం ముఖ్యంగా గుర్తుంచుకోవాల్సిన విషయం ఒక ప్రశ్నలో 'wh' మాట ఉన్నా, లేకపోయినా అంటే అది 'wh' question అయినా, కాకపోయినా, Verb ఎప్పుడూ subject కు ముందుగానీ, లేకుండే Helping verb కు main verb కు మధ్యలోనైనా subject వస్తుంది. ఇది English లో ముఖ్యంగా గుర్తు పెట్టుకోవాల్సిన విషయం)

Let us look at the order of words questions once again: a) Verb + Subject

b) Helping verb + Subject + main verb

c) 'Wh' word + verb + subject

d) 'Wh' word + helping verb + subject + main verb.

Grammar & Usage

This is very important in English. Always remember the difference between the statement word order and the question word order. Now ask questions to get the following answers:

1. Yes, they are coming today.
2. They are going to America next week.
3. No, they do not help me.
4. My friends are coming tomorrow because tomorrow is my birth day.
5. No, they didn't help me at all.
6. They know him because he is their classmate.
7. Yes, Kavitha and Rohini are my mother's friends.
8. They help me because I helped them in the past.
9. Yes, I do / I understand
10. I spent the last evening watching the TV.

Key

1) Are they coming today?
2) When are they going to America?
3) Do they help you?
4) Why are your friends coming?
5) Did they help you?
6) How do they know him?
7) Are Kavitha and Rohini your mother's friends?
8) Why do they help you?
9) Do you understand Hindi?
10) How did you spend last evening?

Practice asking questions in English. Remember once again the question word order:

NON-Wh QUESTIONS	Wh QUESTIONS
Verb + Subject	'Wh' word + Verb + Subject
Helping Verb + Subject + Main Verb	'Wh' word + Helping Verb + Subject + Main Verb

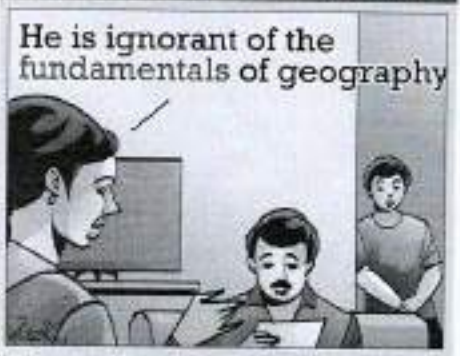
When you say I went to Hyderabad, you must mention the date and time of your going and returning. I had been to Hyderabad = I went to Hyderabad sometime ago and have returned. 'I had been to' is preferable to I went, because if you went to some place, who will you tell about your going?

VOCABULARY



1. Spiritual = Connected with the soul (ఆధ్యాత్మికమైన).

eg: There are a number of spiritual gurus in India.

✦ Spiritual X Materialistic = connected with the life in this world (ఈ ప్రపంచానికి సంబంధించిన).

eg: He is purely materialistic and is always worried about wealth and comforts.

2. Fundamental = Elementary (ప్రాథమికమైన).

In the last lesson we have seen the use of the present tense forms. Now we are going to study the use of the past tense (V2) forms:

1) The words was and were indicate being in the past. (was, were గతంలో ఉండటాన్ని తెలుపుతాయి). We use 'was' with I, he, she and it (singular numbers – I, he, she, it లతో was వాడాం) and were with we, you, and they (Plural Subjects – were ను బహువచన subjects తో వాడాం). 'Was' with I, he, she, and it, and 'were' with We, you and they indicate being in the past. (was/ were రెండూ కూడా గతంలో ఉండటాన్ని తెలుపుతాయి)

eg: a) I/ he/ she was in Nellore last week. (గత వారం నేను/ అతడు/ ఆమె నెల్లూరులో ఉన్నాం.)

b) It (the book) was here last night. (అది/ ఆ పుస్తకం అక్కడ ఉండింది నిన్న రాత్రి.)

c) We / You / they (my friends) were in Hyderabad the day before yesterday (మేము/ మనం/ వారు (మా స్నేహితులు) మొన్న హైదరాబాద్‌లో ఉన్నాం/ ఉన్నారు).

d) Those books (they) were on this table last night. (ఆ పుస్తకాలు నిన్న రాత్రి టేబుల్ మీద ఉన్నాయి.) So we see that was / were talk about being in the past at a definite time. (గతంలో ఖచ్చితమైన సమయంలో జరిగిన పనులను గురించి చెబుతాయి.)

2) Similarly, the past doing words (went, spoke, talked, etc.) talk about actions at a definite time in the past. (అలాగే past doing words (went, spoke, talked మొదలైన verbs) గతంలో ఒక ఖచ్చితమైన సమయంలో జరిగిన పనుల గురించి చెబుతాయి.)

eg: a) I/ he/ she/ we/ you/ they (some students) visited New Delhi last week (క్రితం వారం నేను/ అతడు/ ఆమె/ మీరు/ వాళ్ళ కొత్త దిల్లీకి వెళ్లాను/ వెళ్లాడు/ వెళ్లింది/ వెళ్లారు)

b) I kept these books on the table last night.

c) In Delhi, last week, I/ he/ she/ it/ we/ you/ they (our friends) met some of the ministers (దిల్లీలో మేము కొంతమంది మంత్రులను క్రితం వారం కలుసుకున్నాం.)

d) Some books (they) gave very good information on the subject yesterday. (నిన్న కొన్ని పుస్తకాలు మాకు ఆ విషయం మీద మంచి సమాచారాన్ని ఇచ్చాయి).

3) The past continuous form was + ing, with I/ he/ she/ it and were + ing form with we, you, they talk about continuous actions in the past. (గతంలో కొనసాగిన చర్యలను గురించి, was/ were + ing తెలుపుతాయి.)

Grammar & Usage

eg: a) While he was singing she was dancing (అతను గతంలో పాట పాడుతుంటే, ఆమె వాళ్ళూ చేస్తుండింది).

b) I was walking along the street when I met my friend (నేను రోడ్డు మీద నడుస్తున్నప్పుడు నా స్నేహితుడు కనిపించాడు.)

c) The train (it) was going at top speed, when it met with an accident (ఆ రైలు అత్యంత వేగంతో వెళ్తున్నప్పుడు ప్రమాదం జరిగింది).

d) The buses (they) were moving very fast on the roads last evening (నిన్న సాయంత్రం బస్సులు అమితవేగంతో వెళ్తున్నాయి.)

4) 'Had been' is the past perfect tense. It talks about an earlier state of being than another state of being. (గతంలో రెండు ఉండటాల్లో ముందర ఉండటాన్ని గురించి అది చెబుతుంది.)

eg: a) He had been in Nellore before he moved to Hyderabad (హైదరాబాద్‌లో స్థిరపడే ముందు, అతడు నెల్లూరులో ఉండేవాడు).

b) The books (they) had been on the table, before he put them in the shelf (అతను ఆ పుస్తకాలను షెల్ఫ్‌లో పెట్టడమంటు అవి టేబుల్ మీద ఉన్నాయి).

c) My friends (they) had discussed it with me, before they took a decision. (నిర్ణయం తీసుకునే ముందు నా స్నేహితులు ఆ విషయాన్ని నాతో చర్చించారు.)

5) Had + PP (V3), eg: Had seen, had known, etc.) talks of an earlier past action that took place before another past action. (had+PP (V3) గతంలో జరిగిన రెండు చర్యలలో మొదట జరిగిన చర్యను గురించి చెబుతుంది.)

eg: a) He had left the place before I arrived there. (His leaving the place was earlier than my arriving at the place. – Both are past actions, but his leaving took place earlier than my arrival there. – నేనక్కడికి వెళ్లే

ఆంగ్లభాషణ 980

In the last lesson we have learnt the uses of do, does and did. Unlike in Telugu, in English the order of words in a question is different from the order of a statement. ఆంగ్లంలో ఒక విషయం చెప్పే వాక్యానికీ, ప్రశ్నకూ, మాటల వరుసలో చాలా తేడా ఉంటుంది.

Look at the following: Karthik comes here every day. This is a statement (ఇది ఒక విషయాన్ని చెప్పే వాక్యం). Look at the order of words in the statement (దీనిలో మాటల వరుస చూడండి): Karthik (subject) + comes (Verb). So, the order of words in the statement is: Subject (sub) + Verb. అంటే ఒక విషయం చెప్పే వాక్యంలో subject ముందు, Verb తర్వాత వస్తాయి.

a) Now look at the order of words in a question: Is he your friend?

The order of words here : Verb + Subject

b) Now look at the next question and the order of words in it: Does he come here every day?

Order of words in this question: Helping Verb + Sub + Main Verb. (When there are two or more words in a verb, the first verb is called the Helping Verb - in this question it is 'does', and the other word is called the main verb – in this question, the main verb is 'come'. రెండు అంత కంటే ఎక్కువ మాటలున్న verb లో మొదటి మాటను Helping verb అంటాం. ఆ తర్వాత ఉండే మాటను గానీ, మాటలను గానీ main verb అంటాం. ఇది తర్వాత గుర్తుంచుకోవాల్సిన విషయం.)

These two questions (a) and (b) are Non-wh questions, that is, they don't begin with the words, what, when, who, whose, whom, how and why. Though 'why' and 'how' do not begin with 'Wh' let us call them 'wh' words too. We usually use these words for asking questions. There are, however, questions which begin with 'Wh' words too. Let us look at them:

c) Where were you yesterday?

Look at the order of words here: Where ('wh' word) + were (verb) + you (Sub)

d) Where did he go?

Here, the order of words is: Where ('Wh' word) + did (helping verb) + he (sub) + go? (main verb)

Also remember: The answers to 'Non-wh' questions is yes or no. But the answers to 'Wh' questions is always a statement.

eg: 1) Are they coming today? Answer: Yes (they are). No (They are not)

The answer to 'wh' question is always a statement.

eg: a) When are they coming? Answer: They are coming tomorrow. b) What are they doing? Ans: They are studying.

★ మామూలు రకం 'Wh' మాటలేవి ప్రశ్నలకు yes / no అని సమాధానం వస్తుంది. కానీ 'Wh' questions కు జవాబు ఎప్పుడూ ఒక వాక్యం.

★ Whether a question is a 'Non-wh' question or 'Wh' question, the IMPORTANT POINT to remember is: the verb always comes before the subject, or the subject comes in between the helping verb and the main verb. This is very important in English. (అంటే మనం ముఖ్యంగా గుర్తుంచుకోవాల్సిన విషయం, ఒక ప్రశ్నలో 'wh' మాట ఉన్నా, లేకపోయినా అంటే అది 'wh' question అయినా, కాకపోయినా, Verb ఎప్పుడూ subject కు ముందుగానీ, లేకపోతే Helping verb కు main verb కు మధ్యలోనైనా subject వస్తుంది. ఇది English లో ముఖ్యంగా గుర్తు పెట్టుకోవాల్సిన విషయం)

Let us look at the order of words questions once again: a) Verb + Subject

b) Helping verb + Subject + main verb

c) 'Wh' word + verb + subject

d) 'Wh' word + helping verb + subject + main verb.

Grammar & Usage

This is very important in English. Always remember the difference between the statement word order and the question word order. Now ask questions to get the following answers:

1. Yes, they are coming today.
2. They are going to America next week.
3. No, they do not help me.
4. My friends are coming tomorrow because tomorrow is my birth day.
5. No, they didn't help me at all.
6. They know him because he is their classmate.
7. Yes, Kavitha and Rohini are my mother's friends.
8. They help me because I helped them in the past.
9. Yes, I do / I understand
10. I spent the last evening watching the TV.

Key

1) Are they coming today?
2) When are they going to America?
3) Do they help you?
4) Why are your friends coming?
5) Did they help you?
6) How do they know him?
7) Are Kavitha and Rohini your mother's friends?
8) Why do they help you?
9) Do you understand Hindi?
10) How did you spend last evening?

Practice asking questions in English. Remember once again the question word order:

NON-Wh QUESTIONS	Wh QUESTIONS
Verb + Subject	'Wh' word + Verb + Subject
Helping Verb + Subject + Main Verb	'Wh' word + Helping Verb + Subject + Main Verb

of be form + V3.

A: 'Born' here is a past participle (V3) used as an adjective. There is no active voice for it.

Q: What's the difference between these two sentences? Please clarify.

1. I am gone.

Q: Sir what is the difference between i) What do you give/ What you give ii) I give to you/ I give you iii) I will give you/ I will give to you iv) To do/ Make do - Please explain.

A: 1) What do you give? – This is the correct question form. 'What you give?' is not correct. Only as a part of a sentence it is correct. eg: I do not know what you give him. That depends on you.

2) 'I will give you (what you want)' is correct and I will give to you is wrong.

3) To do = (చేయుడం). I want to do it immediately. To make do (This is an idiom) = to adjust with something, though it is not enough (మనకి సరిపోయినంత కానప్పటికీ సర్దుబాటు చేయడం). eg: I will have to make do with the little money I have.

Grammar & Usage

★ Can, Could: 'Can' is used 1) with the meaning of ability (can = గల. ఏదైనా చేయగలిగే దానికి, can వాడాలి).

eg: a) He can understand English (అతడు ఇంగ్లీషు అర్థం చేసుకోగలడు).

b) Can he swim? (అతడు ఈదగలడా?)

c) How can he help me? (అతడు నాకెలా సాయం చేయగలడు?)

2) Can, especially in the question form, is sometimes used for asking permission in an informal manner (ప్రశ్న రూపంలో can వాడిన వ్యక్తి అంత పద్ధతిగా కాకుండా అనుమతి అడిగేందుకు వాడతాం.)

eg: a) Can I come in? (Have I the permission? = నేను లోపలికి రావచ్చా?)

b) Can I borrow your book for a few days? (Will you allow me to borrow your book? = మీ పుస్తకాన్ని నేను కొన్ని రోజులు అడుగు తీసుకోవచ్చా?)

3) Can is used in the statement form for giving permissions: ('can' ను statement form లో అనుమతి ఇవ్వడానికి కూడా వాడతాం.)

eg: a) You can go now. (=You are permitted to go = మీరిక వెళ్లవచ్చు)

b) They can participate in the competition if they want (= They are permitted to participate = వాళ్ళు కావాలనుకుంటే పోటీలో పాల్గొనవచ్చు)

Important: Can for permissions is more informal than 'May'.

4. 'Could':

'Could' is 1) the past form of 'can', that is, if 'Can' expresses ability in the present, 'Could' expresses ability in the past (Could, can యొక్క గతం. అంటే గతంలో ఏదైనా చేయగలిగి ఉంటే, could వాడాలి.) However, it is doubtful, if a person was able to do it in the past. (అయితే గతంలో ఏవనైనా ఏదైనా చేయగలిగి ఉండేవాడా అనేది సందేహమే.)

5. eg: a) I thought he could do it (అతడు చేయగలిగేవాడని నేననుకున్నాను. చేయగలిగేవాడో లేదో తెలియదు) (Present form for this: I think he

GRAMMAR AND USAGE

This time we are going to discuss conditional clauses. (ఇప్పుడు మనం షరతులను తెలిపే clause లను చూడబోతున్నాం. షరతు అంటే condition అని తెలిపే క్లాజ్. Clause అంటే verb ఉండే మాటల సముదాయం. A conditional clause is a clause which expresses a condition. (Conditional clause అంటే షరతులను తెలిపే clause) Usually conditional clauses begin with 'if, unless, as soon as, before, after, when, where, etc. (షరతు లను తెలిపే clause లు సామాన్యంగా if, unless, as soon as, before, after, when, where లతో ప్రారంభం అవుతాయి.) Please understand that in conditional clauses the future tense is not used. (గమనించాల్సిన విషయం ఏమిటంటే conditional clauses లో future tense వాడరు.)

Condition No.1

a) If he is here, his friends will talk to him. This is the first conditional clause. This means that if he is here, his friends will talk to him. There is the possibility of his being here, and his friends talking to him. (అతను ఇక్కడ ఉండే అవకాశమూ ఉంది, అతడి స్నేహితులు అతడితో మాట్లాడే అవకాశమూ ఉంది.)

b) If he comes here tomorrow, his mother will be happy. (అతను రేపొద్దుటికి వస్తే, వాళ అమ్మ సంతోషపడుతుంది). Here again, there is the possibility of his coming here tomorrow.

GRAMMAR AND USAGE

The last time we have studied conditional clauses. Let us continue them once again.

1) If he comes here, his mother will be happy. This means there is a possibility of his coming here, and his mother feeling happy. This is probable. (అతను ఇక్కడికి వస్తే వాళ్ళమ్మ సంతోషపడుతుంది- తని ఆగమం అతడిక్కడికి వచ్చే అవకాశం ఉంది. వాళ్ళమ్మ సంతోషపడే అవకాశం ఉంది.)

2) If he takes the medicines, he will recover. This means there is a probability of his taking the medicines and there are chances of his recovering. (అతడు మందులు తీసుకుంటే కోలుకునే అవకాశం ఉంది. ఇది కూడా సాధ్యమే.)

3) If he came here, his mother would be happy. This means he might not come, and there is no question of his mother feeling happy. This is improbable at present. (అతడి ఇక్కడికి రావడం అంటూ జరిగితే, వాళ్ళమ్మ సంతోషపడుతుంది- ఇది ప్రస్తుతం సాధ్యం కాని విషయం.)

Grammar & Usage

We are now going to study Active and Passive voices. (మనం ఇప్పుడు Active and Passive voice గురించి మరికొన్ని విషయాలు తెలుసుకుందాం) Active voice means, somebody does some work.a Passive voice means, something is done by somebody (Active Voice అంటే ఒకరు ఒకపనిని చేస్తారు/చేయబోతున్నారు అని). Nowadays, however, Active Voice is being more used than Passive Voice (కానీ ఈ రోజుల్లో Passive voice కంటే Active Voice నే ఎక్కువగా వాడుతున్నారు). Let us now examine Active and Passive Voices (మనం ఇప్పుడు Active Voice, Passive Voice గురించి అధ్యయనం చేద్దాం). We have seen how we can change Active into Passive Voice. We are now going to see how we can change commands and orders into Passive Voice forms. (మనం ఇప్పుడు Active Voice లోని ఆజ్ఞలను Passive Voice లోకి ఎలా మార్చాలో తెలుసుకుందాం)

GRAMMAR AND USAGE

ఒకరు ఒక పని చేస్తే అది Active voice, ఎవరిచేత ఒక పని చేయబడితే అది Passive voice. If somebody does something, it is active voice, and if something is done by somebody it is passive voice. In active and passive voice, the tense of the verb remains the same.

Writer
M. Suresan

When you change a sentence from active voice to passive voice the tense of the verb does not change.

Let us now study active and passive voices. In Modern English, mostly active voice is used and passive voice is not much used. When you change a sentence from active to passive voice the tense of the verb does not change.

Please remember: ★ Only transitive verbs, that is verbs with objects, alone have passive voices. In some cases verbs without objects too have passive voices.

★ Only Verbs with objects alone have passive voices. Verbs without objects have no passive voices usually. Let us take the verb, give.

Please remember: ★ Present perfect continuous tenses usually does not have passive voices. There are eight active voice forms and eight passive voice forms only (అంటే పదిమంది active forms, eight passive voice forms మాత్రమే ఉంటాయి..

1. Please briefly explain about defining and non-defining relative clauses with examples.

A: A defining relative clause is a part of the sentence and it cannot be removed. We usually use a relative pronoun (who, that, which, whose and whom) to introduce a defining relative pronoun. **eg:** a) They are the people who wish to go home. b) This is the pen with which he wrote the letter.

Non-defining Relative Clause: a) They are the people whom we know very well. b) This is the pen with which he wrote the letter. In defining relative clauses we use also 'that' instead of 'who, whom or which'.

eg: a) Surya who I work with is participating in the running race. b) Doctors usually give injections to patients which account for at least 30% of the patients. Here 'which' account for 30% of patients is not necessary. c) Shyam who is talking about one of his brothers works at the famous company.

Q: Sir, we are chatting in English as per our knowledge. But while talking to others (Directly) in English, the flow is missing. So how to resolve this one?

A: What is important is practice. The more you speak in English wrongly or rightly, without any fear of making mistakes, your English will improve. Don't be afraid of making mistakes; through mistakes we learn. Avoid fear. Whenever you have an opportunity, speak only in English. Language is mostly a matter of practice. Secondly, listen to English news telecasts every day. Read the newspaper every day. This will help you a lot.

PM bats for med edu in native language; docs oppose move

EXPRESS NEWS SERVICE @ New Delhi

MEDICAL and technical education should be taught in mother tongue to make it easier for the poor who have not studied English in schools, Prime Minister Narendra Modi said on Monday.

Hours later, doctors and various experts said the move would be "impractical" and "not feasible." They contended that any such proposal was not well thought out.

On the occasion of Jan Aushadhi Diwas, Modi pitched for greater reach of native languages. "...they (students) will be able to study medical and technical education in their mother tongue so that the poor, middle-class and lower-middle-class children who haven't taken English in schools will also be able to become doctors."

The prime minister on Sunday in Assam had also said he has a dream of setting up at least one medical college and a technical institution in each state that will impart education in the local language.

However, doctors and experts said the move is not well-thought out and not feasible. Dr Rajeev Ranjan Prasad, a former member of the Medical Council of India, said, "India is a multi-lingual nation. We will have to standardise the words so that it means the same in other local languages too. I am not able to understand what goal will be achieved by doing this. It is a very impractical move."

Federation of All India Medical Association (FIMA) national president Dr Rohan Krishnan also spoke in the same vein. "National Medical Commission (NMC) allows students, who have done MBBS from six English speaking countries, to practice medicine in India without a screening test. This shows that they also understand that quality medical education can only be provided and accepted when done in English," he said, adding that it is not feasible.

CM releases ₹709 cr for Vidya Deevena

EXPRESS NEWS SERVICE @ Vijayawada

CHIEF Minister YS Jagan Mohan Reddy on Wednesday released ₹709 crore to 10.82 lakh students under the Jagananna Vidya Deevena scheme for the October-December 2021 quarter.

The amount was credited to the bank accounts of the mothers' of the beneficiary students.

Virtually addressing the beneficiaries, the Chief Minister termed education as the only invaluable asset that could not be robbed. It would change the life and living standards of people, and hence his government was according top priority to education, Jagan said.

Bill tabled to protect Govt Quota seats in Brownfield universities

EXPRESS NEWS SERVICE
@ Vijayawada

THE State Government on Wednesday tabled a bill in the Assembly amending the AP Private Universities (Establishment and Regulation) (Amendment) Act, 2022. The Bill is intended to protect the existing Government quota in colleges/institutions that would convert into Brownfield Private Universities.

The government is proposing to establish Brownfield Universities in the State on the lines of the provisions under the National Education Policy-2020 that envisages colleges to strive towards becoming autonomous and eventually transform into universities.

As per the Bill, well-performing colleges in the State that have established a reputation for offering world-class education and have consistently obtained higher NAAC or NBA accreditation will only be allowed to convert into Brownfield Private Universities.

Official sources said the existing, well-performing, self-financed institutions operating under a society or trust, usually, are likely to come forward to establish a Brownfield Private University.

The existing self-financed institutions already offer a certain percentage of seats like 70% in case of engineering colleges, 75% for B.Ed, 80% for law and physical education, etc., of the sanctioned intake as 'Convener Quota'.

However, as per the existing provisions and as amended in Act 20 of 2021, by converting the existing colleges into a Brownfield University, only 50% or minimum 35% of seats will be reserved under Government quota.

As a result, the Government quota will be reduced considerably with the existing institutions converting to Brownfield Universities, thereby affecting the prospects of the meritorious students as the existing Convener Quota seats in the institutions are not protected to be covered under Government quota at present. Thus, the Government came up with the amendment to provide for protection of existing opportunities for all students.

In case of conversion of an existing institution to a Brownfield University, admission of students into the existing approved intake should be regulated by the rules of admission and seat sharing as applicable to a college.

In fact, the Government has already earmarked Government quota of 50% seats with regard to medical and dental courses and minimum 35% of seats in every other course of study in the Greenfield Universities. The objective of the Government is to provide quality education and ensure that it is accessible to meritorious students belonging to socially and economically backward sections.

Scheduled time of Act

The date of commencement for the amended Andhra Pradesh Private Universities (Establishment and Regulation) (Amendment) Act, 2022 should be January 12, 2022 since the first Brownfield University of the State came into existence on the said date

A teacher at Nagulapalli High School takes classes under the shade of trees as the school building is in a precarious condition. Management says education department has been alerted of the situation | EXPRESS

Lack of proper infra, official apathy send students chasing shadows

S TRIMURTHULU @ Kakinada

THE Zilla Parishad High School at Nagulapalli in U Kothapalli mandal resembles the Santiniketan—albeit for a different reason.

The school authorities did not take a cue from Visva-Bharati where classes are held in the lap of nature. In Kothapalli, students are made to attend classes under the shade of trees as the school building is in a precariously dilapidated state.

The 'classes' change position even as the sun shifts westward.

"The school premises has large trees and shrubs. As the sun changes direction, so does the shade and we follow it," a teacher said. Holidays are declared on rainy days.

The school has 204 English medium students and 120 others studying in Telugu. The building that is supposed to host the English medium classes is in a precarious state but the one for Telugu medium students is in a good condition. P4

EAC-PM moots urban jobs guarantee plan

EXPRESS NEWS SERVICE
@ New Delhi

WITH income inequality in the country becoming starker, the Economic Advisory Council to the Prime Minister (EAC-PM) on Wednesday proposed implementing an urban employment guarantee scheme on the lines of the Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS). The panel raised concerns over growing inequality as captured in *The State of Inequality in India Report* released by it.

The report said the labour force participation rate in the country was 51.5% in 2019-20, which was better than the 49% in 2017-18. However, the participation rate of those educated till higher secondary over three years from 2017-18 to 2019-20 was significantly low at 40-43%.

The clamour for an urban jobs scheme has been growing louder with increasing income inequality and job losses. Experts said an urban-focused employment guarantee scheme will go a long way in supporting consumption.

The EAC-PM also recommended that raising minimum income and introducing a universal basic income are some of the measures that can reduce the income gap.

PARLIAMENTARY PANEL REPORT

More women in Central forces recommended

EXPRESS NEWS SERVICE
@ New Delhi

ON finding that women constitute only 3.68% of the total strength of Central Armed Police Forces, a parliamentary committee has asked the Union Ministry of Home Affairs (MHA) to take concrete steps to increase the representation of women in the Central police organisations.

The parliamentary standing committee on home affairs, headed by Congress leader Anand Sharma, pointed out that in 2016, it was decided to reserve 33% posts at the constable level for women in CRPF and CISF to begin with and 15% posts at the same level in BSF, SSB and ITBP.

In a report tabled in Rajya Sabha on Monday, the panel said, "The committee is disappointed to note that women constitute only 3.68% of the total strength of the CAPF. The committee recommends that MHA take concrete steps to increase the representation of women in CAPFs." The panel urged MHA to conduct phase-wise recruitment drives on a fast-track basis for women, particularly in CISF and CRPF.

The committee advised MHA to create a conducive environment in border outposts by putting in place separate arrangements, so that women are motivated to join the forces. The committee noted that ₹1,85,776.55 crore, covering all the 11 demands, has been allocated to the MHA in Budget Estimate 2022-23, which is an increase of 11.54% as compared to the allocation of ₹1,66,546.94 crore in 2021-22.

Reviewing the budget utilisation by the different departments within the MHA, the commitee said the Union Territories without legislature have utilised approximately 66.83% of the total allocation made to them in 2021-22 till January, 2022.

The committee said it believes that proper utilisation of funds is very important,failing which, it may lead to cuts by the finance ministry and weaken the case for enhanced allocations in subsequent years.

UK rhino named after queen

ANIMAL

Over her record-breaking reign, Queen Elizabeth II has had many things named after her. Joining the list is a rare white rhino in a British wildlife park. "Queenie" was born in the Cotswold Wildlife Park and Gardens in southern England, and named in honour of the monarch's 70th anniversary on the throne. "All the rhinos here are named after very special people and I think everyone agrees that 2022 will always be special because of Queen Elizabeth's Platinum Jubilee," park chief Reggie Heyworth said. White rhinos have recovered somewhat in their native southern Africa after coming under protection, but births in captivity remain rare. Queenie joins a chicken dish, a cake, ships, trains and a host of buildings around the world named in honour of the monarch.

Most internal displacements in world due to climate change

EXPRESS NEWS SERVICE
@New Delhi

THE catastrophic impact of climate change on humans has been brought to the fore once again by the State of Global Climate 2021 report of the World Meteorological Organization, released on Wednesday.

It says around 4 crore new internal displacements were recorded in 2020 globally, of which over 75 per cent were caused by disasters driven by climate events like tropical cyclones, floods, earthquakes and volcanic eruptions.

The report says the average annual number of dead and missing persons per 1,00,000 people in the event of a disaster has fallen from 1.98 during 2005-2014 to 1.32 during 2011-2020. In absolute terms, however, disaster-related mortality remains quite high.

In the last three years, about 2,50,000 disaster-related deaths and missing persons were reported by an average of 74 countries. The single largest event with highest mortality in 2021 was the Haiti earthquake, resulting in over 2,500 deaths. However, the impact of climate change and variability continues to manifest in form of hydrometeorological disasters. "In 2021, floods resulted in around 1,200 deaths in India, over 350 deaths in China and over 200 deaths in Germany and Belgium. At the same time, over 600 people lost their lives due to heat waves in Northern America," the report says.

Mortality remains high

The report says the average annual number of dead and missing persons per 1,00,000 people in the event of a disaster has fallen from 1.98 during 2005-2014 to 1.32 during 2011-2020. In absolute terms, however, disaster-related mortality remains quite high.

In the last three years alone (2018-2020), about

disaster-related deaths and missing persons were reported by an average of 74 countries.

In 2021, floods resulted in around 1,200 deaths in India, over 350 deaths in China and over 200 deaths in Germany and Belgium. Over 600 people lost their lives due to heat waves in N. America —Report

On the economic cost of disasters, the report says during 2018-2020, total economic losses of about US$148.32 billion have been reported by an average of 53 countries each year.

"That this is an underestimation (due to limited reporting on loss and damage) can be ascertained from the fact that global disaster losses from natural hazards in 2020 alone is estimated to be US$210 billion by the insurance sector, which was over 25 per cent higher than in the previous year. In fact, over a four-decade period starting 1980, total losses due to such disasters have been estimated to be US$5.2 trillion," the report says.

The FAO estimates that between 2008 and 2018, disasters cost the agricultural sector of developing economies over US$108 billion in damaged or lost crop and livestock production.

India has most deaths due to pollution: Study

One in six deaths worldwide happened due to pollution, a Lancet study has shown

EXPRESS NEWS SERVICE
@ New Delhi

ONE in six deaths globally was due to pollution, with about 9 million dying due to exposure to pollution, and the highest number of casualties were reported in India, according to Global Burden of Diseases, Injuries, and Risk Factors Study 2019 published in the Lancet.

India saw over 23.5 lakh premature deaths due to all types of pollution. About 16.7 lakh fatalities were caused by air pollution – 9.8 lakh were caused by ambient PM2.5 pollution and 6.1 lakh due to household air pollution. Water pollution killed 5 lakh, while there were 1.6 lakh occupational pollution related deaths and 2.3 lakh died due to lead exposure.

Air pollution – both household and ambient – was the biggest killer, at 6.67 million worldwide. Even though reductions have occurred in the number of deaths attributable to the types of pollution associated with poverty, these are offset by increased deaths due to ambient air pollution and toxic chemical pollution (lead).

Deaths from modern risk factors, which are the unintended consequence of industrialisation and urbanisation, have risen by 7% since 2015 and by over 66% since 2000.

Despite efforts by various agencies and groups, little progress against pollution can be identified, particularly in the low-income and middle-income countries. Urgent attention is needed to control pollution and prevent pollution-related disease.

In India, air pollution is most severe in the Indo-Gangetic Plain, where topography and meteorology concentrate pollution from energy, mobility, industry, agriculture, and other activities, the researchers said, adding that burning of biomass was the single largest cause of air pollution deaths in India, followed by coal combustion and crop burning.

Axis Bank seeks applications from 'homemakers' to fill 15 positions in its HR depa the process redefines housework

LIFFY THOMAS

Axis Bank has reserved 15 vacant positions in its human resources department for 'homemakers'. If this hiring programme – titled 'HouseWorkIsWork' – is out of the ordinary, what led to it is even more unusual.

A homemaker, Pallavi Sharma sent in a CV that spelt out how her responsibilities in the Sharma household – which is her own – qualified her for the role she had applied for.

Rajkamal Vempati, president and head – HR, Axis Bank says Pallavi's CV set them thinking, and encouraged them to be open to hiring homemakers coming right out of a career break, or without prior experience, provided they have the requisite qualifications and job-oriented skills.

This hiring exercise is being driven by Pallavi, now an Axis Bank employee. It is inclusive, having been extended to not just women, but also men, and those with other gender identities. And also those with different sexual orientations.

"We recognise that homemakers could be of all genders. Though majorly, it is women who are seen in the role of a homemaker: a thing we hope will change with more and more women taking the plunge in corporate skies," she says.

File photo of a job fair (Representational image)

"We have received hundreds of CVs from women, men and LGBTQIA+ homemakers," reveals Rajkamal and notes that the hiring team would make the effort to connect and evaluate each of them.

The minimum qualification is graduation and work experience can range from 0 to 15 years.

Breaking stereotypes

Rajkamal calls for shift in thinking that values skills honed at home – budgeting, housekeeping, learning and development (of their children) – as applicable to the workplace. Rajkamal says homemakers are the pillars of Diversity, Equity and Inclusion within the fundamental unit of a family.

Shubhashree Naldurg, Head, Interweave Institute of Inclusion, notes that organisations must try to leverage the additional skill-sets that homemakers bring to the table.

Going on a break to take care of the family is often seen as a setback.

'Child can get citizenship even if parents renounce it'

HC judge cites several judgements, says foetus be considered child

R SIVAKUMAR @ Chennai

RESOLVING a complex matter involving the consideration of a foetus as a minor child in resumption of its Indian citizenship, the Madras High Court has ruled that the child is entitled to get back the citizenship even though its parents renounced the same when it was in womb.

According to section 8(2) of the Citizenship Act (CA), when a person ceases to be a citizen of India, every minor child of that person shall thereupon ceases to be its citizen. The child, however, may resume its citizenship within a year of attaining the age of 18.

The case pertains to that of Pranav Srinivasan, a 22-year-old, who sought resumption of his citizenship though his parents had obtained a Singapore citizenship on December 19, 1998, when he was a foetus aged seven-and-a-half months. Later, Pranav, too obtained a Singapore citizenship by virtue of his birthplace.

However, after attaining the age of majority on March 1, 2017, Pranav made a declaration before the Indian Consulate in Singapore seeking resumption of his Indian citizenship on May 5, 2017.

The application was rejected by the Ministry of Home Affairs on April 30, 2019 and Pranav was asked to apply for citizenship under Section 5 (1) (f)/ (g) of the CA, if he so desires.

Justice Anita Sumanth of the Madras High Court, in a recent order, quashed the order of the Union Ministry of Home Affairs, and ordered: "I have devoted anxious study in setting out the discussion as aforesaid and can arrive at no other conclusion except to state that a foetus or embryo, particularly one who was 7 ½ months on the critical date, that is 19.12.1998, certainly has acquired the status of a child..."

"...With this status, he acquires citizenship of his parents, i.e, Indian citizenship and one that they renounced on the aforesaid date. Thus the protection/entitlement available under Section 8(2) for resumption of citizenship cannot be denied to him." Referring to the issue of considering a foetus as a minor child, the judge quoted several judgments of Indian and overseas courts and a UN Convention to say that the distinction between pre-birth and post-birth loses all significance and a foetus en ventre sa mere (in its mother's womb), must also be considered a child, particularly when the provisions of Section 8(2) indicate as much, and specifically so. The petitioner is entitled to resumption of his citizenship and shall be issued a document of citizenship within four weeks, Justice Anita Sumanth directed.

The use of virtual class in teaching its offers numerous advantages for students.

Digital class can integrate multimedia elements such as 3D models, animations, and interactive simulations. Thesevisual aids enhance the understanding of molecular structures, chemical reactions, and other abstract concepts.

OBJECTIVES

- Virtual class usage develop the mentality of self sustainability among the students.
- The extensive usage of virtual classrooms can inculcate the methodology of self relaiability among the students.
- Virtual classes help the students to understand the concepts. This iterative approach allows for more hands on experience and deeper learning

Events and Activities:

1.Awareness Campaigns: Various government agencies, consumer organizations, and non-governmental organizations(NGOS) conducted awareness campaigns across the country to educate consumers about their rights and responsibilities. These campaigns utilized various medium such as seminars, workshops, social media, and print media to reach a wide audience.

2.Workshops and Seminars: Educational workshops and seminar were organized at school, colleges, and community centers to impart knowledge about consumer rights, product quality, misleading advertisements, and legal redressel mechanisms. Experts from legal, consumer affairs, and business sectors were invited to share insights and address consumer queries.

3.Consumer Rights Clinics: Special consumer rights clinics were setup in collaboration with legal and organizations to provide free legal advice and assistance to consumers facing disputes or grievances. These clinics severed as valuable resources for consumers seeking guidance on navigating the legal system and asserting their rights effectively.

4.Interactive Sessions: Interactive session were conducted between consumers, business, and regulatory authorities to foster dialogue and collaboration in addressing consumer concerns. These sessions facilitated constructive exchanges of ideas and experiences, paving the way for improved consumer-business relations and regulatory enforcement.

5.Online Campaigns: In recognition of the growing influence og digital platforms in consumer transactions, online campaigns were launched to raise awareness about digital consumer rights, online frauds, data privacy, and cyber security. These campaigns utilized social media platforms, webinars, and online forums.

CONCLUSION

National Consumers Day serves as a vital platform for promoting consumer awareness, empowerment, and advocacy in India. By commemorating the enhancement of the Consumer Protection Act & highlighting contemporary consumer issues, this day reaffirms the Nations commitment to protecting consumer rights and fostering a fair and transparent market place, moving forward, Sustained efforts are essential to address evolving challenges such as., Digital Consumer Protection and ensure that consumer rights remain at the forefront of policy making and en-forcement initiatives.

BEST PRACTICE IN MY INSTITUTION

DEPARTMENT OF CHEMISTRY

TITLE OF THE BEST PRACTICE: "USING OF VIRTUAL AND DIGITAL LAB"

The use of virtual labs and digital labs in teaching its offers numerous advantages for students.

Digital labs can integrate multimedia elements such as 3D models, animations, and interactive simulations. These visual aids enhance the understanding of molecular structures, chemical reactions, and other abstract concepts.

OBJECTIVES OF THE BEST PRACTICE:

Virtual labs allow students to conduct experiments involving hazardous materials or reactions without any safety concerns. This is especially important for beginners who are learning fundamental concepts in chemistry.

Virtual labs provide access to a wide range of experiments that might be challenging to set up in a physical laboratory due to resource constraints. Students can explore diverse chemical reactions and phenomena, enriching their understanding of the subject.

Students can repeat experiments multiple times in virtual labs to reinforce their understanding of concepts. This iterative approach allows for more hands-on experience and deeper learning.

Digital labs often come with tools for real-time data collection and analysis. Students can develop skills in interpreting experimental results and drawing conclusions, enhancing their analytical capabilities.

Virtual labs eliminate the need for purchasing and maintaining expensive equipment and chemicals. This can significantly reduce the overall cost of running a chemistry laboratory, making education more financially sustainable.

By leveraging virtual and digital labs, chemistry educators can enhance the learning experience, promote safety, and provide students with valuable practical skills in a cost-effective and accessible manner.

REPORT ON GUEST LECTURE

We the Department of Chemistry organized a guest lecture on "**Green Chemistry and Sustainable Future**" for III B.Sc students by the resource person **Smt. K. Santoshi, Lecturer in Chemistry, Chintapalli**. Madam delivered a lecture on Principles of Green Chemistry, Green Methods and Applications of Green Chemistry in Various fields and also clarifies the doubts of students. Forty five (45) students were attended to Guest Lecture from III MPC, III CBZ and III Seed Technology groups. By this guest lecture students develop their knowledge and skills in the field of Green Technology.

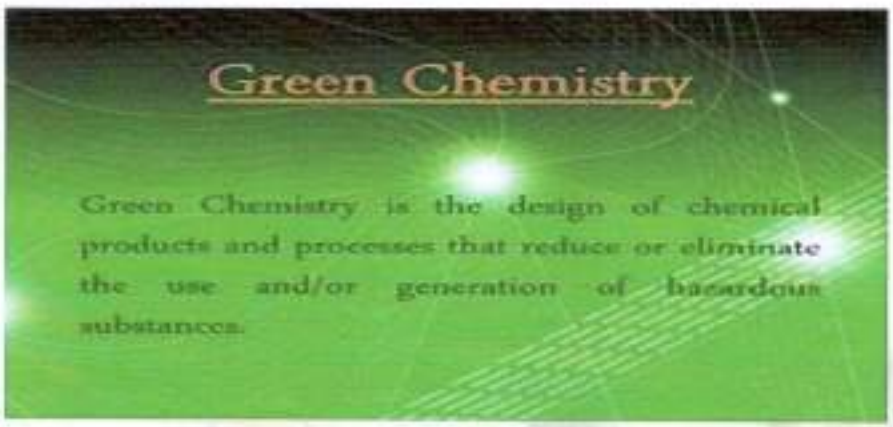
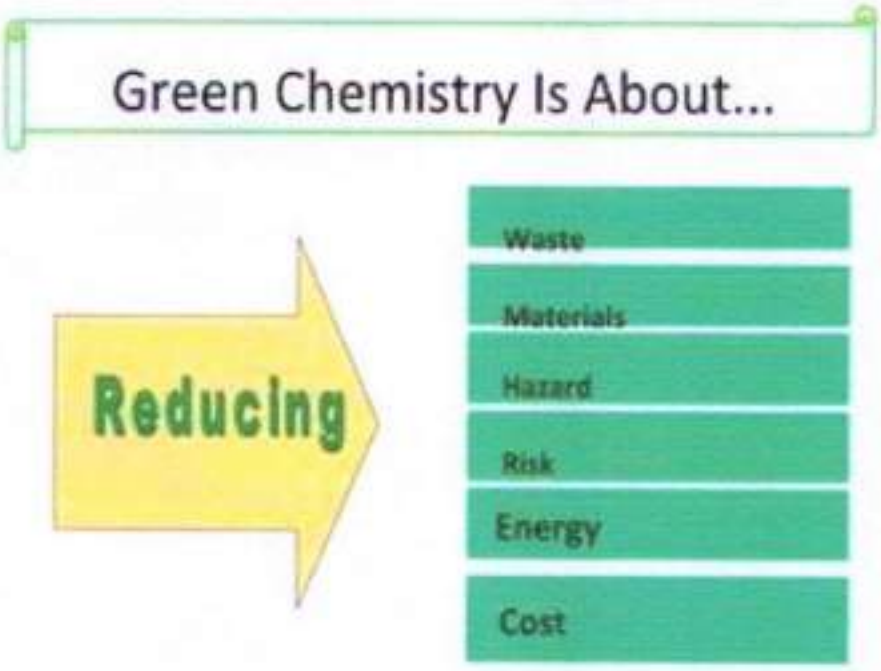
TOPIC SYNOPSIS

INTRODUCTION





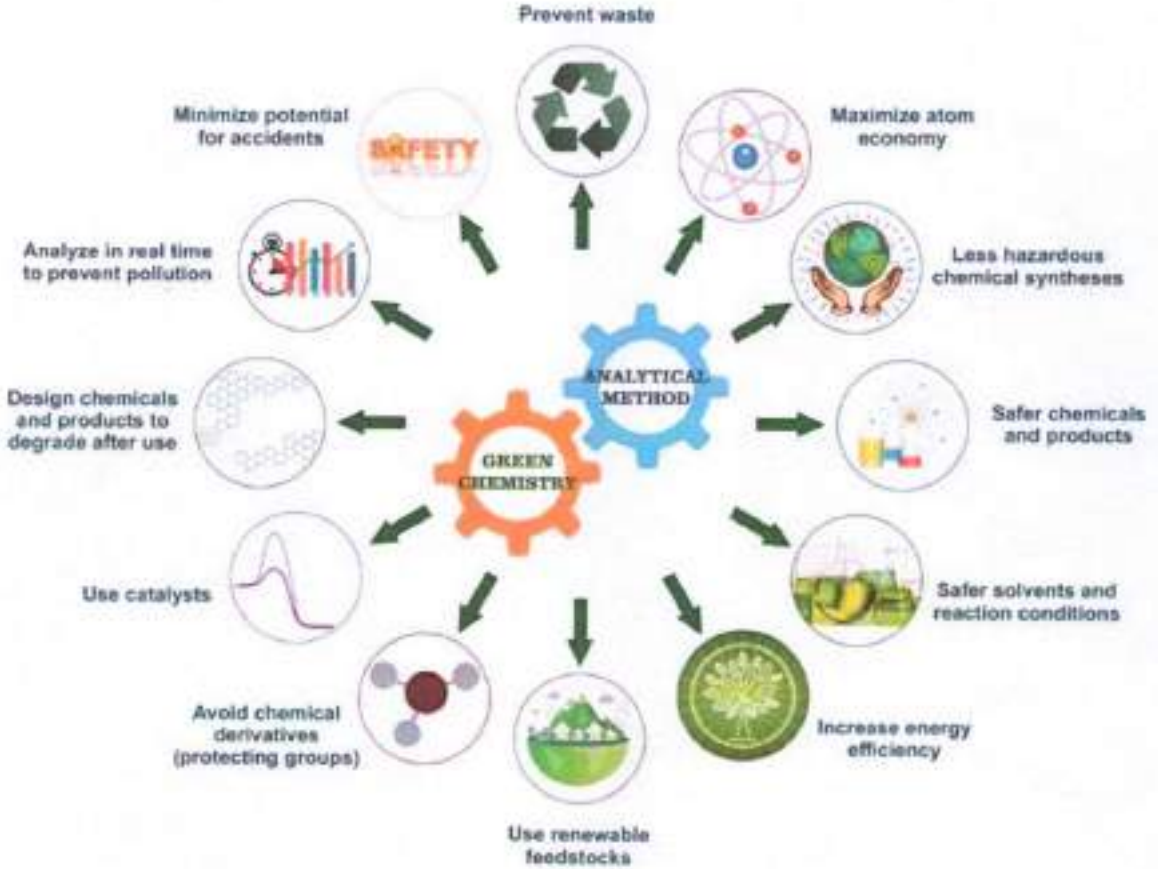
OBJECTIVES

With increasing environmental concerns, the need for environmentally benign synthetic Chemistry and the development of non-toxic and mild chemicals has assumed significant importance. The practice of green chemistry has led to the development of numerous environmentally safe processes and chemicals that have greatly improved the quality of human health. The first talk was focused on an introduction to green chemistry, a discussion of toxicity and toxic molecules. The second lecture was highlighted the relevance and importance of green chemistry with case studies. In particular, the dangers of plastics and pesticides will be highlighted along with green chemistry solutions.

Principles of Green Chemistry

1. Prevention of waste
2. Atom Economy
3. Less Hazardous Chemical Syntheses
4. Designing Safer Chemicals
5. Safer Solvents and Auxiliaries
6. Design for Energy Efficiency
7. Use of Renewable Feedstock's
8. Reduce Derivatives
9. Catalysis
10. Design for Degradation
11. Real-time Analysis for Pollution Prevention
12. Inherently Safer Chemistry for Accident Prevention

APPLICATIONS OF GREEN CHEMISTRY



OUTCOMES:

1 Realise the importance of green technologies in sustainable growth of Industry and society.

2 Adopt alternative methods and solvents for green synthesis.

3 Develop cleaner production and treatment mechanism for pollution prevention.

The use of virtual labs and digital labs in teaching its offers numerous advantages for students.

Digital labs can integrate multimedia elements such as 3D models, animations, and interactive simulations. These visual aids enhance the understanding of molecular structures, chemical reactions, and other abstract concepts.

OBJECTIVES

Virtual labs allow students to conduct experiments involving hazardous materials or reactions without any safety concerns. This is especially important for beginners who are learning fundamental concepts in chemistry.

Virtual labs provide access to a wide range of experiments that might be challenging to set up in a physical laboratory due to resource constraints. Students can explore diverse chemical reactions and phenomena, enriching their understanding of the subject.

Students can repeat experiments multiple times in virtual labs to reinforce their understanding of concepts. This iterative approach allows for more hands-on experience and deeper learning.

Digital labs often come with tools for real-time data collection and analysis. Students can develop skills in interpreting experimental results and drawing conclusions, enhancing their analytical capabilities.

Virtual labs eliminate the need for purchasing and maintaining expensive equipment and chemicals. This can significantly reduce the overall cost of running a chemistry laboratory, making education more financially sustainable.

By leveraging virtual and digital labs, chemistry educators can enhance the learning experience, promote safety, and provide students with valuable practical skills in a cost-effective and accessible manner.

INTRODUCTION

In present age, all people want to appear smart and elegant in his personality. The history of soap industry in India is very old say since 1889. The use of soap or soap like cleaning agent has always been associated with man's inherent instinct to keep his body and other belonging clean. Soap help remove slag from skin to make skin a brilliant glow. The principal raw material of soap is oil and fats. According to these raw materials the quality of soap and category of soap is changed. The necessary raw materials are needed to be of high purity and the finished product should have the balanced pH as its froth may enter the eye. Toilet soaps are made by combining liquid fats (like vegetable oils or animal fat) with an alkali like sodium hydroxide (also called lye). The process is called saponificationll; the definition of saponifyll is literally to turn fat or oil into soap by reaction with an alkali. During the curing process, the sodium hydroxide and water evaporate out of the product, leaving behind just awesome soapll. Superfatting,ll which refers to the process of adding liquid fats to soap after saponification, is popular for its rich, moisturizing effect. Clear soaps will add glycerin and sorbitol (a sugar alcohol with emollient properties), and products labeled antibacterialll usually rely on triclosan, a substance that kills bacteria and helps prevent fungus growth. A simple production method with high return soaps are invariably used in every household. The antibacterial soap with a moisturizer added has huge market potential. The market is spread from remote village to the metro cities alike. The industry gives a good profit and high employment oriented.

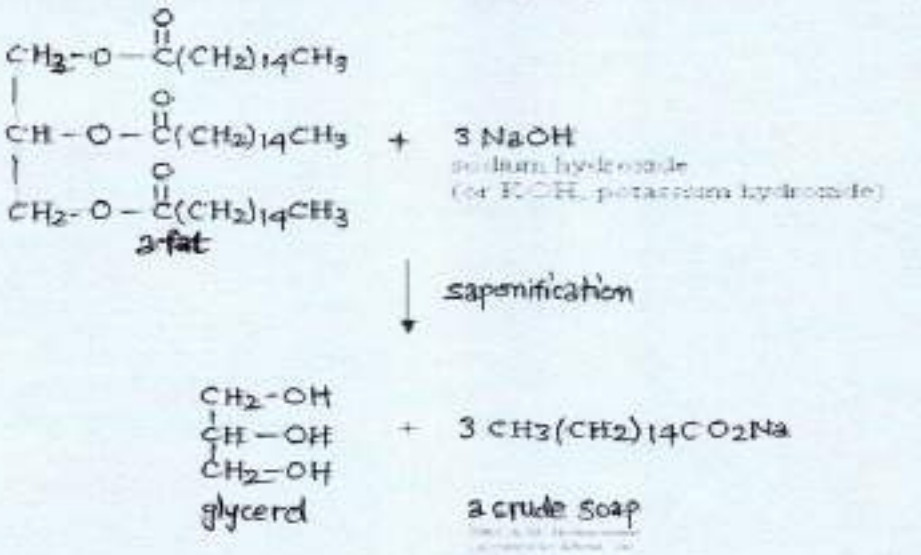
Objectives:

The objective of this laboratory is to make lye soap via the saponification reaction.

Soap making has remained unchanged over the centuries. The ancient Roman tradition called for mixing rain water, potash and animal tallow (rendered form of beef or mutton fat). Making soap was a long and arduous process. First, the fat had to be rendered (melted and filtered). Then, potash solution was added. Since water and oil do not mix, this mixture had to be continuously stirred and heated sufficiently to keep the fat melted. Slowly, a chemical reaction called saponification would take place between the fat and the hydroxide which resulted in a liquid soap. When the fat and water no longer separated, the mixture was allowed to cool. At this point salt, such as sodium chloride, was added to separate the soap from the excess water. The soap came to the top, was skimmed off, and placed in wooden molds to cure. It was aged many months to allow the reaction to run to completion.

All soap is made from fats and oils, mixed with alkaline (basic) solutions. There are many kinds of fats and oils, both animal and vegetable. Fats are usually solid at room temperature, but many oils are liquid at room temperature. Liquid cooking oils originate from corn, peanuts, olives, soybeans, and many other plants. For making soap, all

different types of fats and oils can be used anything from lard to exotic tropical plant



oils.

Saponification Reactions:

Benefits of Using Natural Soap

There are several benefits to using natural soap, including:

1. Real Soap Instead of "Fake Soap"

Many products that are advertised or displayed using terms like 'cleanser,' 'body bar,' 'body wash,' 'beauty bar,' 'skincare bar,' and even 'deodorant soap' are actually detergent based products, and not really soaps at all.

2. Natural Soap is Highly Moisturising

One of the benefits of using real soap is that one of the by-products of the production process is glycerine. Glycerine is an excellent skin moisturiser because it attracts moisture to itself in and around the skin. Traditionally made soaps contain glycerine, and so they hydrate the skin during bathing, whereas many commercially manufactured soaps can dry skin out. Why? Because store-bought, commercial soaps usually undergo a process designed specifically to remove the glycerine.

3. Better for the Environment

Organic soaps do not produce harmful environmental poisons or toxins. The soap breaks down more easily after use and does not harm the water cycle or the wildlife that shares the water in our rivers, lakes, and the oceans. This eco-friendliness would be a strong argument for using organic soaps, even if all else was equal. Add to it the great

quality and efficacy of the soaps, and the pleasure you get from a more unique product, and they are a clear winner

4. Rich in Antioxidants

Since the ingredients used in organic soaps include many that are natural antioxidants, and since the process doesn't extract these substances for other purposes, organic soaps can actually help to repair the skin by reducing inflammation, keeping skin hydrated, and therefore helping the user to have young-looking, healthier skin. The gentler pH levels of organic soaps (usually between 9 and 10) help care for your skin in the long term, as well as keeping you looking and feeling clean and fresh now

5. They Don't Use Preservatives

Organic products do have a shorter shelf life, but that is for good reason. The preservatives used in non-organic products tend to be toxic to humans or the environment. It sometimes comes down to a choice: do you want the product to be able to sit, unused, on a shelf for a long time, or do you want it to be healthier for the user? The answer is clear.

6. Natural Antibacterial Properties

In most antibacterial soaps you will find triclosan, parabens, sulphates and other toxic chemicals that are thought to increase the risk of some cancers, can alter hormonal balance, and can affect your reproductive system.

Organic soaps, on the other hand, do not contain these chemicals and instead use antibacterial agents like essential oils. Not only do these help fight harmful bacteria, but they also have great fragrances, like lavender, tea tree, eucalyptus

PROCEDURE

The beauty toilet soap can be made or manufactured into 2 steps namely preparation of soap base and to obtain finished products soap base. For making the soap base the specifications is carried which is done by either remitting and perfuming and secondly by milling process. Fat should be used of high standard quality. Weigh fat oil & lye (sodium- hydroxide) accurately, if the lye is weighed more, the soap will be hard and harmful to skin and if the lye is low, the fat will not be saponifed properly. Melt oil fat into a kettle and filter it to remove any impurity. Now add caustic soda lye into it slowly and stir continuously when the oil is saponified

Extraction of fresh aloe for soap making

1. Cut the aloe leaf into several sections.
2. Use a sharp knife to run along the inside edges of each section, separating the inner gel from the outer skin.

3. Use your fingers or a spoon and press the aloe gel from the leaf.
4. Place in a small food processor or blender.
5. Process until smooth. (It will get fluffy, almost like egg whites.)
6. Store in the refrigerator if you'll be making soap within a few days, or freeze in ice trays for longer storage.

Ingredients for aloe Vera soap

- 71 g distilled water
- 55 g lye (sodium hydroxide) – 6% superfat
- 57 g fresh aloe gel
- 170 g olive oil
- 85 g coconut oil*
- 57 g sunflower oil (or sweet almond or apricot kernel)
- 57 g tallow (or shea, mango or cocoa butter)
- 28 g castor oil

Directions

1. Put on goggles and gloves.
2. Weigh the water into a stainless steel or heavy duty plastic container.
3. Weigh the lye into a small cup.
4. Sprinkle the lye into the water and stir well.
5. If using, stir in the green clay and chlorella powder.
6. Cool the lye solution in a safe spot for 30 – 40 minutes, or until about 100 to 115 degrees F.
7. Stir in the sodium lactate, if using.
8. Melt the tallow (or butter) and coconut oil, then combine with the remaining oils.
9. Add the rosemary oleoresin extract (ROE) to the oils, if using.
10. Use an immersion blender to thoroughly blend the fresh aloe gel into the oils.
11. Pour the cooled lye solution into the warm oils/aloe mixture.
12. Use a combination of hand stirring and brief short bursts of the immersion blender to mix until soap reaches trace.
13. Pour soap into molds.
14. Cover lightly with a sheet of wax paper, then a towel or blanket to insulate.
15. Keep the soap in the mold for 1 to 2 days or until easy to remove.

16. Cure the soap on sheets of wax paper in the open air for 4+ weeks before using.

DEPARTMENT OF CHEMISTRY

REPORT

Student group project work was conducted in the Department of Chemistry during the academic year 2022-23 on the topic "SOAP MAKING" on 12/10/2022 in which 20 students of II year MPC Group have actively participated. Student participation is very good and Experiential Learning is progressing and Team work skills are progressing.

PROJECT WORK

Name :- Adapa pragathi

topic :- Strong electrolyte

Group :- IInd BSc [MPC]

-: Strong Electrolyte Example:

* Strong acids, strong bases, and ionic salts that are not weak acids (or) bases are strong electrolytes. Salts much have high solubility in the solvent to act as strong electrolytes.

HCl (hydrochloric acid), H_2SO_4 (Sulfuric acid), NaOH (Sodium hydroxide) and KOH (potassium hydroxide) are all strong electrolytes.

originally, a "strong electrolyte" was defined as a chemical that, when in aqueous solution, is a good conductor of electricity. With a greater understanding of the properties of ions in solution, its definition was replaced by the present one.

A concentrated solution of this strong electrolyte has a lower vapor pressure than that of pure water at the same temperature. Strong acids. Strong bases and soluble ionic salts that are not weak acids (or) weak bases are Strog electrolytes.

A substance whose aqueous solution (or) molten state decomposed into ions by passing electricity is known as electrolytes.

Strong Acids.

* Perchloric acid ($HClO_4$)
* Hydriodic acid (HI)
* Hydrochloric acid (HCl)
* Hydrobromic acid (HBr)
* Sulfuric acid (H_2SO_4)
* Nitric acid (HNO_3)
* Chloric acid ($HClO_3$)
* Bromic acid ($HBrO_3$)
* Perbromic acid ($HBrO_4$)
* Periodic acid (HIO_4)
* Fluoroantiminic acid ($HSbF_6$)
* magic acid [FSO_3HSbF_5]
* Carborane superacid $H(CHB_{11}Cl_{11})$
* Fluorosulfuric acid [FSO_3H]
* Triflic acid [CF_3SO_3H]

Strong Bases:

* Lithium hydroxide [LiOH]
* Sodium hydroxide [NaOH]
* potassium hydroxide [KOH]
* Rubidium hydroxide [RbOH]
* caesium hydroxide [CsOH]
* Calcium hydroxide [$Ca(OH)_2$]
* strontium hydroxide [$Sr(OH)_2$]
* Barium hydroxide [$Ba(OH)_2$]
* Lithium diisopropylamide [LDA] $C_6H_{14}LiN$.
* Sodium amide [$NaNH_2$]
* Sodium hydride NaH

Salts:

* Sodium choride [NaCl]
* potassium nitrate [KNO_3]
* magnesium chloride [$mgcl_2$]
* Sodium acetate [CH_3COONa]

WORLD ENVIRONMENT DAY CELEBRATION

DEPARTMENT OF BOTANY

World Environment Day (WED) is celebrated annually on June 5th and serves as a crucial platform for raising awareness and advocating for environmental protection. The celebration of **World Environment Day** holds immense significance for several reasons:

1. **Awareness**: **World Environment Day** helps to raise awareness about pressing environmental issues such as climate change, pollution, deforestation, and biodiversity loss among people worldwide. It educates individuals and communities about the importance of preserving and protecting the environment for present and future generations.

2. **Action**: The day encourages individuals, communities, governments, and organizations to take positive actions to address environmental challenges. It serves as a catalyst for collective action, inspiring people to participate in activities like tree planting, clean-up campaigns, and sustainable development initiatives.

3. **Global Collaboration**: **World Environment** Day promotes international cooperation and collaboration to tackle environmental issues on a global scale. It brings together governments, NGOs, businesses, and citizens from around the world to exchange ideas, share best practices, and work towards common environmental goals.

4. **Policy Advocacy**: The day provides an opportunity for policymakers and leaders to highlight the importance of environmental conservation and advocate for stronger environmental policies and regulations. It can influence decision-making processes at local, national, and international levels to promote sustainable development and environmental stewardship.

5. **Education**: **World Environment Day** is an excellent educational tool for promoting environmental literacy and fostering a deeper understanding of the interconnectedness between humans and the environment. It encourages environmental education initiatives in schools, universities, and communities to empower individuals with the knowledge and skills needed to become responsible environmental stewards.

6. **Inspiration**: Celebrating **World Environment Day** inspires individuals and communities to adopt more sustainable lifestyles and consumption patterns. It encourages people to make environmentally conscious choices in their daily lives, such as reducing waste, conserving energy, and supporting eco-friendly practices.

7. **Long-term Impact**: While **World Environment Day** is celebrated annually, its impact extends beyond a single day. The awareness, actions, and commitments made on this day can lead to long-term positive changes in attitudes, behaviors, and policies towards the environment, ultimately contributing to a more sustainable and resilient planet.

In summary, the celebration of **World Environment Day** is important as it raises awareness, inspires action, promotes collaboration, advocates for policy change, fosters education, inspires individuals, and generates long-term positive impacts for the environment and society as a whole.

WORLD ENVIRONMENT DAY CELEBRATION

DEPARTMENT OF BOTANY

Report

Celebrating World Environment Day offers several benefits to students, empowering them to become responsible global citizens and environmental stewards:

1. **Environmental Awareness**: Participation in World Environment Day activities raises students' awareness about pressing environmental issues such as climate change, pollution, biodiversity loss, and resource depletion. It helps them understand the interconnectedness between human actions and the health of the planet.

2. **Hands-On Learning**: Engaging in environmental activities, such as tree planting, clean-up campaigns, and recycling initiatives, provides students with hands-on learning experiences. These activities allow students to apply classroom knowledge in real-world contexts, fostering a deeper understanding of environmental concepts and solutions.

3. **Critical Thinking and Problem-Solving Skills**: World Environment Day activities encourage students to analyze environmental challenges critically and develop innovative solutions. They learn to identify environmental problems, assess their causes and impacts, and brainstorm effective strategies for mitigation and adaptation.

4. **Sense of Responsibility**: Celebrating World Environment Day instills a sense of responsibility and accountability in students towards the environment. It encourages them to reflect on their

ecological footprint and adopt sustainable practices in their daily lives, such as reducing waste, conserving resources, and promoting biodiversity conservation.

5. **Empowerment and Advocacy**: World Environment Day empowers students to advocate for environmental protection and sustainability within their communities and beyond. It provides them with a platform to voice their concerns, raise awareness, and mobilize others to take action on environmental issues through campaigns, events, and educational initiatives.

6. **Interdisciplinary Learning**: World Environment Day promotes interdisciplinary learning by integrating various subjects such as science, geography, social studies, and economics into environmental education. It encourages students to explore the complex relationships between the environment, society, economy, and culture, fostering a holistic understanding of sustainability.

7. **Civic Engagement and Leadership Development**: Participating in World Environment Day activities cultivates students' civic engagement and leadership skills. It encourages them to take initiative, collaborate with peers, and assume leadership roles in organizing and implementing environmental projects and campaigns in their schools and communities.

8. **Global Citizenship**: World Environment Day fosters a sense of global citizenship among students by highlighting the interconnectedness of environmental issues across borders and cultures. It encourages them to recognize their role as global citizens and take collective action to address shared environmental challenges on a local, national, and global scale.

Overall, celebrating World Environment Day benefits students by enhancing their environmental awareness, fostering critical thinking and problem-solving skills, promoting a sense of responsibility and empowerment, fostering interdisciplinary learning, nurturing civic engagement and leadership development, and cultivating a sense of global citizenship. These benefits contribute to students' personal growth, academic achievement, and their ability to make positive contributions to environmental sustainability and social change.

Conclusion: The grand success of this year for science day celebrations is due to the active role played by the organizing committee members and the team work of the ever supporting staff and students of this college to conduct world environment day. Govt degree college, Paderu always devote to generate scientific temper in the society and encourage the students to take up science as their future.

It encourages people to make environmentally conscious choices in their daily lives, such as reducing waste, conserving energy, and supporting eco-friendly practices.

7. **Long-term Impact**: While **World Environment Day** is celebrated annually, its impact extends beyond a single day. The awareness, actions, and commitments made on this day can lead to long-term positive changes in attitudes, behaviors, and policies towards the environment, ultimately contributing to a more sustainable and resilient planet.

In summary, the celebration of **World Environment Day** is important as it raises awareness, inspires action, promotes collaboration, advocates for policy change, fosters education, inspires individuals, and generates long-term positive impacts for the environment and society as a whole.

WORLD ENVIRONMENT DAY CELEBRATION

DEPARTMENT OF BOTANY

Report

Celebrating World Environment Day offers several benefits to students, empowering them to become responsible global citizens and environmental stewards:

1. **Environmental Awareness**: Participation in World Environment Day activities raises students' awareness about pressing environmental issues such as climate change, pollution, biodiversity loss, and resource depletion. It helps them understand the interconnectedness between human actions and the health of the planet.

2. **Hands-On Learning**: Engaging in environmental activities, such as tree planting, clean-up campaigns, and recycling initiatives, provides students with hands-on learning experiences. These activities allow students to apply classroom knowledge in real-world contexts, fostering a deeper understanding of environmental concepts and solutions.

3. **Critical Thinking and Problem-Solving Skills**: World Environment Day activities encourage students to analyze environmental challenges critically and develop innovative solutions. They learn to identify environmental problems, assess their causes and impacts, and brainstorm effective strategies for mitigation and adaptation.

4. **Sense of Responsibility**: Celebrating World Environment Day instills a sense of responsibility and accountability in students towards the environment. It encourages them to reflect on their

Conclusion: The grand success of this year for science day celebrations is due to the active role played by the organizing committee members and the team work of the ever supporting staff and students of this college to conduct world environment day. Govt degree college, Paderu always devote to generate scientific temper in the society and encourage the students to take up science as their future.

Field visit of Plant Nursery

Activity: Field visit to Plant Nursery, Paderu.

ACTIVITY: DATE: Field visit to Plant Nursery Date: 21-10-2022

ORGANISED BY: Dept.of Botany. **No. oF PARTICIPANTS:80**

Plant nursery field trips offer numerous benefits for students, providing them with hands-on learning experiences that enhance their understanding of plant biology, ecology, and environmental conservation. Some of the key importance of plant nursery field trips include:

1. **Experiential Learning**: Plant nursery field trips offer students the opportunity to engage in experiential learning outside the classroom. They can observe and interact with a variety of plant species, learning about their characteristics, life cycles, and ecological roles through direct experience.
2. **Biodiversity Appreciation**: Visiting a plant nursery exposes students to a diverse range of plant species, including native and exotic plants. It helps them develop an appreciation for biodiversity and understand the importance of conserving and protecting plant diversity for ecosystem health and resilience.
3. **Environmental Awareness**: Plant nursery field trips raise students' awareness about environmental issues such as habitat loss, deforestation, and climate change. They learn about the importance of plants in maintaining air and water quality, regulating climate, and providing habitat for wildlife.

4. **Plant Propagation and Cultivation**: Students can learn about plant propagation techniques such as seed germination, cutting propagation, and grafting by observing nursery practices. They gain practical knowledge about how plants are grown, cared for, and propagated for various purposes, including landscaping, reforestation, and agriculture.
5. **Sustainable Landscaping Practices**: Plant nursery field trips provide students with insights into sustainable landscaping practices, such as using native plants, conserving water, and minimizing chemical inputs. They learn about environmentally friendly landscaping techniques that promote biodiversity and ecosystem resilience.
6. **Community Engagement**: Plant nursery field trips foster community engagement by connecting students with local nurseries, botanical gardens, and conservation organizations. They provide opportunities for students to interact with professionals in the field and learn about career pathways in horticulture, botany, and environmental science.
7. **Hands-On Activities**: Field trips to plant nurseries often include hands-on activities such as planting seeds, potting seedlings, and maintaining garden beds. These activities engage students in active learning and promote teamwork, problem-solving, and practical skills development.
8. **Inspiration for Conservation Action**: Plant nursery field trips can inspire students to take action to conserve and protect plants and their habitats. By witnessing first and the beauty and diversity of plant life, students may feel motivated to get involved in environmental stewardship activities, such as tree planting, habitat restoration, and community gardening.

Overall, plant nursery field trips play a valuable role in environmental education by providing students with immersive learning experiences that deepen their understanding of plants, ecosystems, and conservation issues. They foster environmental awareness, appreciation for biodiversity, and inspire students to become advocates for sustainable living and environmental stewardship.

Field visit of Plant Nursery

REPORT

Plantation with hands-on experience offers numerous benefits, especially in terms of environmental education and fostering a sense of environmental stewardship. Here are some key points highlighting the importance of plantation with hands-on experience:

1. **Understanding the Planting Process**: Hands-on plantation activities allow individuals to actively participate in the entire process of planting, from preparing the soil to caring for the plants. This firsthand experience helps them understand the intricacies of planting, including proper spacing, depth, and watering techniques.

2. **Appreciation for Nature**: Engaging in hands-on plantation activities fosters a deeper appreciation for nature and the environment. By interacting directly with plants and trees, individuals develop a greater understanding of the importance of green spaces, biodiversity, and ecosystem services provided by vegetation.

3. **Environmental Education**: Plantation with hands-on experience serves as a valuable educational tool for teaching individuals about the role of plants in environmental conservation. Participants learn about the benefits of trees, such as carbon sequestration, air purification, soil erosion prevention, and habitat creation.

4. **Promotion of Environmental Stewardship**: Hands-on plantation activities instill a sense of environmental stewardship by empowering individuals to take an active role in caring for the environment. By planting trees and participating in reforestation efforts, participants contribute to ecosystem restoration and biodiversity conservation.

5. **Personal Connection with Nature**: Plantation with hands-on experience allows individuals to develop a personal connection with nature. By physically engaging with plants and trees, participants form emotional attachments to the natural world, which can inspire them to advocate for environmental protection and sustainability.

6. **Promotion of Physical Activity and Outdoor Learning**: Plantation activities encourage physical activity and outdoor learning, providing participants with opportunities to connect with nature

while engaging in physical exercise. This outdoor experience promotes health and well-being while fostering environmental awareness.

7. **Community Building and Collaboration**: Plantation with hands-on experience often involves collaborative efforts within communities or groups. By working together to plant trees and beautify green spaces, participants build social connections, strengthen community bonds, and foster a sense of collective responsibility for the environment.

8. **Long-Term Impact**: Hands-on plantation experiences can have a lasting impact on participants, inspiring them to continue supporting environmental conservation efforts beyond the initial planting activity. As trees grow and mature, individuals can witness the tangible benefits of their efforts, reinforcing their commitment to environmental stewardship.

Overall, plantation with hands-on experience is important for promoting environmental education, fostering a sense of environmental stewardship, connecting individuals with nature, and building stronger, more resilient communities dedicated to caring for the environment.

Department of Botany

Field visit of Plant Nursery

Activity: Field visit to Plant Nursery, Paderu.

ACTIVITY: DATE: Field visit to Plant Nursery Date: 21-10-2022

ORGANISED BY: Dept.of Botany. **No. oF PARTICIPANTS:80**

Plant nursery field trips offer numerous benefits for students, providing them with hands-on learning experiences that enhance their understanding of plant biology, ecology, and environmental conservation. Some of the key importance of plant nursery field trips include:

1. **Experiential Learning**: Plant nursery field trips offer students the opportunity to engage in experiential learning outside the classroom. They can observe and interact with a variety of plant species, learning about their characteristics, life cycles, and ecological roles through direct experience.
2. **Biodiversity Appreciation**: Visiting a plant nursery exposes students to a diverse range of plant species, including native and exotic plants. It helps them develop an appreciation for biodiversity and understand the importance of conserving and protecting plant diversity for ecosystem health and resilience.
3. **Environmental Awareness**: Plant nursery field trips raise students' awareness about environmental issues such as habitat loss, deforestation, and climate change. They learn about the importance of plants in maintaining air and water quality, regulating climate, and providing habitat for wildlife.

4. **Plant Propagation and Cultivation**: Students can learn about plant propagation techniques such as seed germination, cutting propagation, and grafting by observing nursery practices. They gain practical knowledge about how plants are grown, cared for, and propagated for various purposes, including landscaping, reforestation, and agriculture.
5. **Sustainable Landscaping Practices**: Plant nursery field trips provide students with insights into sustainable landscaping practices, such as using native plants, conserving water, and minimizing chemical inputs. They learn about environmentally friendly landscaping techniques that promote biodiversity and ecosystem resilience.
6. **Community Engagement**: Plant nursery field trips foster community engagement by connecting students with local nurseries, botanical gardens, and conservation organizations. They provide opportunities for students to interact with professionals in the field and learn about career pathways in horticulture, botany, and environmental science.
7. **Hands-On Activities**: Field trips to plant nurseries often include hands-on activities such as planting seeds, potting seedlings, and maintaining garden beds. These activities engage students in active learning and promote teamwork, problem-solving, and practical skills development.
8. **Inspiration for Conservation Action**: Plant nursery field trips can inspire students to take action to conserve and protect plants and their habitats. By witnessing first and the beauty and diversity of plant life, students may feel motivated to get involved in environmental stewardship activities, such as tree planting, habitat restoration, and community gardening.

Overall, plant nursery field trips play a valuable role in environmental education by providing students with immersive learning experiences that deepen their understanding of plants, ecosystems, and conservation issues. They foster environmental awareness, appreciation for biodiversity, and inspire students to become advocates for sustainable living and environmental stewardship.

Field visit of Plant Nursery

REPORT

Plantation with hands-on experience offers numerous benefits, especially in terms of environmental education and fostering a sense of environmental stewardship. Here are some key points highlighting the importance of plantation with hands-on experience:

1. **Understanding the Planting Process**: Hands-on plantation activities allow individuals to actively participate in the entire process of planting, from preparing the soil to caring for the plants. This firsthand experience helps them understand the intricacies of planting, including proper spacing, depth, and watering techniques.

2. **Appreciation for Nature**: Engaging in hands-on plantation activities fosters a deeper appreciation for nature and the environment. By interacting directly with plants and trees, individuals develop a greater understanding of the importance of green spaces, biodiversity, and ecosystem services provided by vegetation.

3. **Environmental Education**: Plantation with hands-on experience serves as a valuable educational tool for teaching individuals about the role of plants in environmental conservation. Participants learn about the benefits of trees, such as carbon sequestration, air purification, soil erosion prevention, and habitat creation.

4. **Promotion of Environmental Stewardship**: Hands-on plantation activities instill a sense of environmental stewardship by empowering individuals to take an active role in caring for the environment. By planting trees and participating in reforestation efforts, participants contribute to ecosystem restoration and biodiversity conservation.

5. **Personal Connection with Nature**: Plantation with hands-on experience allows individuals to develop a personal connection with nature. By physically engaging with plants and trees, participants form emotional attachments to the natural world, which can inspire them to advocate for environmental protection and sustainability.

6. **Promotion of Physical Activity and Outdoor Learning:** Plantation activities encourage physical activity and outdoor learning, providing participants with opportunities to connect with nature

while engaging in physical exercise. This outdoor experience promotes health and well-being while fostering environmental awareness.

7. **Community Building and Collaboration**: Plantation with hands-on experience often involves collaborative efforts within communities or groups. By working together to plant trees and beautify green spaces, participants build social connections, strengthen community bonds, and foster a sense of collective responsibility for the environment.

8. **Long-Term Impact**: Hands-on plantation experiences can have a lasting impact on participants, inspiring them to continue supporting environmental conservation efforts beyond the initial planting activity. As trees grow and mature, individuals can witness the tangible benefits of their efforts, reinforcing their commitment to environmental stewardship.

Overall, plantation with hands-on experience is important for promoting environmental education, fostering a sense of environmental stewardship, connecting individuals with nature, and building stronger, more resilient communities dedicated to caring for the environment.

DEPARTMENT OF BOTANY

GUEST LECTURE

We, the Department of Botany organized a guest lecture for B.Sc students by the resource person **G.R.N.S**.Sujatha, lecturer in Botany, Government Degree College womens Araku Valley. **G.R.N.S.Sujatha** delivers a lecture on Structure and Function of Chromosomes. Clarify the doubts and explain the steps in easy way. One hundred and twenty (120) students attended the guest lecture from B.Sc (BZH & CBZ and Seed technology). Smt.Sujatha motivated the B.Sc students to learn more knowledge. By these guest lecture students develop their knowledge and skills.

REPORT ON GUEST LECTURE

TOPIC SYNOPSIS

Title: Understanding Chromosomes: The Blueprint of Life

I. Introduction

A. Greet the audience and introduce the topic of chromosomes. B. Provide a brief overview of the significance of chromosomes in genetics and heredity.

II. Definition: Chromosomes are thread-like structures made of DNA and proteins found in the nucleus of cells.

B. Explain the structure of chromosomes, including centromeres, telomeres, and chromatin.

C. Mention the different types of chromosomes: autosomes and sex chromosomes.

III. Functions of Chromosomes

A. Transmission of genetic information during cell division.

B. Regulation of gene expression and cellular processes. C. Importance in inheritance and genetic diversity.

IV. Human Chromosomes

A. Overview of the human karyotype: 23 pairs of chromosomes (46 total), including 22 pairs of autosomes and 1 pair of sex chromosomes.

B. Discussion on the differences between male (XY) and female (XX) sex chromosomes.

C. Mention common chromosomal abnormalities such as trisomy 21 (Down syndrome) and Turner syndrome.

V. Chromosomes and Disease

A. Explain how chromosomal abnormalities can lead to genetic disorders.

B. Discuss the role of chromosomes in cancer, including chromosomal mutations and chromosomal instability.

C. Highlight the importance of chromosomal analysis in diagnosing genetic diseases.

VI. **Chromosomes and Evolution**

A. Explore the evolutionary significance of chromosomes.

B. Discuss chromosomal rearrangements and their role in speciation.

C. Mention examples of chromosomal evolution in different species.

VII. **Recent Advances and Future Directions**

A. Briefly mention recent developments in chromosome research, such as CRISPR-Cas9 technology and chromosome editing.

B. Discuss potential future applications and implications of chromosome research.

Conclusion

A. Summarize key points discussed during the lecture.

B. Invite questions from the audience.

Thank the audience for their participation and interest in the topic.

B. Encourage further exploration of chromosomes and genetics.

This outline provides a structured approach to cover the fundamental aspects of chromosomes, their significance in biology, and their implications in various fields such as genetics, medicine, and evolution. Depending on the audience and time constraints, the lecture can be adjusted to delve deeper into specific topics or include more interactive elements such as case studies or demonstrations.

DEPARTMENT OF BOTANY

REPORT ON GUEST LECTURE

TOPIC SYNOPSIS

Introduction to Plant Tissue Systems

- **Definition and Overview**: Briefly define what plant tissues are and their role in plant physiology.
- **Types of Plant Cells**: Introduction to the basic types of plant cells (parenchyma, collenchyma, and sclerenchyma) that make up these tissues.

The Three Main Plant Tissue Systems

1. **Dermal Tissue System**
    - **Function**: Protection from physical damage and pathogens, prevention of water loss.
    - **Components**: Epidermis, cuticle, stomata, trichomes.
    - **Significance in Nature**: Discuss how the dermal system adapts to different environments (e.g., thick cuticles in desert plants).
2. **Vascular Tissue System**
    - **Function**: Transport of water, nutrients, and sugars throughout the plant.
    - **Components**: Xylem (water transport) and phloem (nutrient/sugar transport).
    - **Significance in Agriculture and Forestry**: Importance in plant growth, crop yield, and wood production.
3. **Ground Tissue System**
    - **Function**: Photosynthesis, storage, and support.
    - **Components**: Parenchyma, collenchyma, and sclerenchyma cells.
    - **Significance in Food Production and Storage**: Role in storing carbohydrates and other nutrients.

Uses and Applications of Plant Tissue Systems

1. **Agriculture**
    - **Improving Crop Yields**: Understanding plant tissue systems helps in genetically engineering crops for better resistance to pests and diseases, improved water and nutrient transport, and enhanced photosynthesis efficiency.
    - **Soil Conservation**: Role of root systems (part of the vascular system) in preventing soil erosion.
2. **Horticulture**
    - **Grafting and Propagation**: Knowledge of vascular tissue is crucial in successful grafting practices, allowing for the propagation of plants with desirable traits.
3. **Forestry**
    - **Wood Quality and Production**: The structure and composition of vascular tissues, especially xylem, determine wood strength, texture, and water content, affecting its utility in construction, paper, and furniture industries.
4. **Environmental Conservation**
    - **Carbon Sequestration**: Plants, through photosynthesis (primarily in the ground tissue), play a crucial role in capturing atmospheric CO2, a greenhouse gas, thereby mitigating climate change.
    - **Habitat and Biodiversity**: Plant tissue systems support diverse life forms by providing food, shelter, and ecosystem services.
5. **Biotechnology**
    - **Pharmaceuticals and Nutraceuticals**: Many plants synthesize valuable secondary metabolites (in various tissue systems) that are used in drugs, supplements, and natural health products.
    - **Bioengineering**: Engineering plant tissues for producing biofuels, bioplastics, and other sustainable materials.

Conclusion

- Summarize the critical roles of plant tissue systems in nature and their significance to humans.
- **Future Directions**: Highlight ongoing research and potential future applications in improving sustainable agriculture practices, conservation efforts, and biotechnological advancements.
-

By covering these points, your lecture will provide a comprehensive overview of plant tissue systems and their vast implications in ecology, agriculture, and various industries, emphasizing the importance of plants beyond their basic biological functions.

REPORT ON GUEST LECTURE

TOPIC SYNOPSIS

1. **Introduction to Plant Respiration**:
   - Define plant respiration: The metabolic process by which plants release energy from organic compounds to fuel cellular activities.
   - Highlight its significance: Essential for growth, development, and maintenance of plant cells and tissues.
2. **Comparison with Animal Respiration**:
   - Briefly contrast plant respiration with animal respiration.
   - Emphasize differences in the organelles involved (mitochondria in both, but chloroplasts in plants), and the gas exchange processes (photosynthesis vs. inhalation/exhalation).
3. **Biochemical Pathways Involved**:
   - Glycolysis: Breakdown of glucose into pyruvate in the cytoplasm, yielding a small amount of ATP.
   - Citric Acid Cycle (Krebs cycle): Occurs in the mitochondria, further breakdown of pyruvate into carbon dioxide, generating more ATP and electron carriers (NADH and FADH2).
   - Electron Transport Chain (ETC): Series of protein complexes in the inner mitochondrial membrane that transfer electrons from NADH and FADH2, driving the production of ATP via oxidative phosphorylation.
4. **Aerobic vs. Anaerobic Respiration**:
   - Aerobic respiration: Occurs in the presence of oxygen, yielding a high amount of ATP.
   - Anaerobic respiration: Takes place in the absence of oxygen, leading to the production of ATP through fermentation pathways, such as alcoholic fermentation or lactic acid fermentation.
5. **Role of Oxygen and Carbon Dioxide**:
   - Oxygen: Required as the final electron acceptor in the electron transport chain to generate ATP.
   - Carbon dioxide: Produced as a byproduct of the citric acid cycle and released during respiration.
6. **Factors Affecting Plant Respiration**:
   - Temperature: Respiration rates generally increase with temperature up to a certain point, beyond which enzymatic activity may decline due to heat stress.
   - Oxygen availability: Adequate oxygen is crucial for aerobic respiration to proceed efficiently.
   - Substrate availability: Availability of substrates such as glucose affects the rate of respiration.
7. **Conclusion**:
   - Recap key points discussed.
   - Highlight the importance of continued research in understanding plant respiration for sustainable agriculture and environmental conservation.

Ensure that your lecture is engaging by incorporating visual aids like diagrams, charts, and videos where appropriate, and encourage interaction with the audience to enhance understanding and retention of the material.

BRIEF REPORT

ACTIVITY: National Science Day DATE: 02th February, 2022

ORGANIZED BY: DEPT.OF BOTANY NO.OF PARTICIPANTS: 134

INTRODUCTION:

National Science Day is celebrated in many countries, including India, to mark the discovery of the Raman Effect by the Indian physicist Sir C.V. Raman on February 28, 1928. The significance of National Science Day lies in its aim to promote scientific thinking and appreciation for science and technology among people, especially students and the general public. Here are some key reasons why National Science Day is important:

1. **Promotion of Scientific Temper:** National Science Day encourages the development of a scientific temper among individuals. It emphasizes critical thinking, rationality, and evidence-based decision-making, which are essential for societal progress.
2. **Celebration of Scientific Achievements:** It serves as a platform to celebrate significant contributions made by scientists, researchers, and innovators. Recognizing and honoring their achievements inspires others to pursue careers in science and technology.
3. **Educational Outreach:** National Science Day facilitates educational outreach programs aimed at students and the public. It provides opportunities for science exhibitions, lectures, demonstrations, and workshops, fostering a deeper understanding of scientific concepts and principles.

4. **Stimulating Curiosity:** The day encourages curiosity and inquiry-driven learning. By showcasing the wonders of science through various activities and events, it motivates people to explore the world around them and ask questions about how things work.
5. **Promoting Innovation and Research:** National Science Day highlights the importance of research and innovation in addressing societal challenges and driving economic growth. It encourages investment in science and technology infrastructure and promotes collaborations between academia, industry, and government.
6. **Inspiring Future Generations:** By commemorating the achievements of scientists, National Science Day inspires young minds to pursue careers in science, technology, engineering, and mathematics (STEM). It plays a crucial role in nurturing the next generation of innovators and problem solvers.
7. **Creating Awareness:** National Science Day raises awareness about the role of science and technology in addressing global issues such as climate change, healthcare, energy, and sustainable development. It underscores the need for evidence-based policies and public support for scientific research.

Overall, National Science Day serves as a reminder of the transformative power of science and the importance of fostering a scientific culture in society. It encourages collaboration, curiosity, and innovation, ultimately contributing to the advancement of knowledge and the betterment of humanity.

National Science Day is **celebrated to spread a message about the importance of science used in the daily life of the people. To display all the activities, efforts and achievements in the field of science for human welfare.** It is celebrated to discuss all the issues and implement new technologies for the development.

Brief Report on National Science Day

Every year on the 28th of February, India celebrates National Science Day. While this day is observed to inspire and encourage youth to develop an interest in science, National Science Day commemorates the discovery of the 'Raman Effect' by the Nobel laureate and scientist CV Raman.

The celebrations for this day take various forms. On one hand, the Government of India felicitates scientists who have contributed to the field of science, thus marking the anniversary of the 'Raman Effect. And on the other hand students from across the country demonstrate science projects.

It is celebrated to discuss all the issues and implement new technologies for the development in the field of science. To give an opportunity to the scientific minded citizens in India. To encourage the people as well as popularize science and technology.

The theme for National Science Day, NSD 2023 is 'Global Science for Global Wellbeing'.

The grand success of this science week for science day celebrations is due to the active role played by the organizing committee members and the team work of the ever supporting staff and students of this college Inspired by the feeling of Sir C.V Raman that if the women of India take to science they can achieve anything, Govt degree college Paderu always devote to generate scientific temper in the society and encourage the women students to take up science as their future.

National science day celebrations on 28-02-2023

REPORT

Detail report on National Science day

Importance of Science day:

National Science Day in India is celebrated annually on February 28 to commemorate the discovery of "Raman Effect" by Indian physicist Sir Chandrasekhara Venkata Raman (C.V. Raman). The occasion also serves as a platform to appreciate and raise public awareness about the contributions of our scientific community toward the development of our nation.

Objectives:

Some of the prominent objectives of National Science Day celebrations can be seen as follows:

- Spreading the message of the importance of science and its application in daily life.
- To encourage the youth to engage in scientific activities and consider careers in science and technology
- Inculcating scientific temper and fostering a culture of innovation among the general public.

Theme for National science day 2023: The theme of National Science Day this year is **'Global Science for Global Wellbeing'**. The theme indicates India's emerging global role and rising visibility in the international arena.

Celebrations in GDC,PADERU:

On Science day, different activities were being performed Such as a drawing competition on National Science day 2023 theme,awareness program by the lectures,quiz competition,teaching aids preparation by students(Models) and Debate.

Awareness program: Botany Department has conducted an awareness program and all the lectures and students of Ist,IInd and IIIrd years had actively participated in it.All the lectures had given their opinions on Science day,developing technology in our country, Contribution of our Scientist and so on.Even the students had also spoke about different topics on Science.

Quiz Competition: Quiz competition was conducted among the students on the occasion of Science day.Students were divided into four teams and were made to answer the given question orally.The team which got the highest points were awarded with a gift.

Debates:A debate is to discuss an issue or topic.A debate on topic Global warming was discussed between two groups of students and teachers also joined with students and took part in the debate.

Teaching aids: Teaching aids include Charts,models,and the things to make the students understand a concept easily and visually.Students of Science departments prepared models and charts on topics such as Human anatomy, Photosynthesis,mixed culture,Corona virus, Development of Human embryo etc.

Conclusion: The grand success of this year for science day celebrations is due to the active role played by the organizing committee members and the team work of the ever supporting staff and students of this college Inspired by Sir C.V Raman .Govt degree college ,paderu always devote to generate scientific temper in the society and encourage the students to take up science as their future.

DEPARTMENT OF Botany

BRIEF REPORT

ACTIVITY: National Science Day DATE: 02th February, 2022

ORGANIZED BY: DEPT.OF BOTANY NO.OF PARTICIPANTS: 134

INTRODUCTION:

National Science Day is celebrated in many countries, including India, to mark the discovery of the Raman Effect by the Indian physicist Sir C.V. Raman on February 28, 1928. The significance of National Science Day lies in its aim to promote scientific thinking and appreciation for science and technology among people, especially students and the general public. Here are some key reasons why National Science Day is important:

1. **Promotion of Scientific Temper:** National Science Day encourages the development of a scientific temper among individuals. It emphasizes critical thinking, rationality, and evidence-based decision-making, which are essential for societal progress.
2. **Celebration of Scientific Achievements:** It serves as a platform to celebrate significant contributions made by scientists, researchers, and innovators. Recognizing and honoring their achievements inspires others to pursue careers in science and technology.
3. **Educational Outreach:** National Science Day facilitates educational outreach programs aimed at students and the public. It provides opportunities for science exhibitions, lectures, demonstrations, and workshops, fostering a deeper understanding of scientific concepts and principles.

4. **Stimulating Curiosity:** The day encourages curiosity and inquiry-driven learning. By showcasing the wonders of science through various activities and events, it motivates people to explore the world around them and ask questions about how things work.
5. **Promoting Innovation and Research:** National Science Day highlights the importance of research and innovation in addressing societal challenges and driving economic growth. It encourages investment in science and technology infrastructure and promotes collaborations between academia, industry, and government.
6. **Inspiring Future Generations:** By commemorating the achievements of scientists, National Science Day inspires young minds to pursue careers in science, technology, engineering, and mathematics (STEM). It plays a crucial role in nurturing the next generation of innovators and problem solvers.
7. **Creating Awareness:** National Science Day raises awareness about the role of science and technology in addressing global issues such as climate change, healthcare, energy, and sustainable development. It underscores the need for evidence-based policies and public support for scientific research.

Overall, National Science Day serves as a reminder of the transformative power of science and the importance of fostering a scientific culture in society. It encourages collaboration, curiosity, and innovation, ultimately contributing to the advancement of knowledge and the betterment of humanity.

National Science Day is **celebrated to spread a message about the importance of science used in the daily life of the people. To display all the activities, efforts and achievements in the field of science for human welfare.** It is celebrated to discuss all the issues and implement new technologies for the development.

Brief Report on National Science Day

Every year on the 28th of February, India celebrates National Science Day. While this day is observed to inspire and encourage youth to develop an interest in science, National Science Day commemorates the discovery of the 'Raman Effect' by the Nobel laureate and scientist CV Raman.

The celebrations for this day take various forms. On one hand, the Government of India felicitates scientists who have contributed to the field of science, thus marking the anniversary of the 'Raman Effect. And on the other hand students from across the country demonstrate science projects.

It is celebrated to discuss all the issues and implement new technologies for the development in the field of science. To give an opportunity to the scientific minded citizens in India. To encourage the people as well as popularize science and technology.

The theme for National Science Day, NSD 2023 is 'Global Science for Global Wellbeing'.

The grand success of this science week for science day celebrations is due to the active role played by the organizing committee members and the team work of the ever supporting staff and students of this college Inspired by the feeling of Sir C.V Raman that if the women of India take to science they can achieve anything, Govt degree college Paderu always devote to generate scientific temper in the society and encourage the women students to take up science as their future.

Department of Botany

Student seminars are incredibly important for several reasons:

1. **Academic Development**: Seminars provide students with the opportunity to delve deeper into specific topics within their field of study. They allow students to engage in critical thinking, analysis, and discussion, which are crucial for academic growth.
2. **Enhanced Learning**: Presenting a seminar requires students to thoroughly research a topic, which enhances their understanding beyond what they might gain from traditional lectures or textbooks. Moreover, listening to peers present seminars exposes students to a variety of perspectives and ideas, enriching their learning experience.
3. **Communication Skills**: Seminars provide a platform for students to practice their communication skills, both oral and written. Presenting a seminar involves articulating complex ideas in a clear and concise manner, while participating in discussions hones active listening and speaking skills.
4. **Critical Thinking**: Engaging in seminar discussions challenges students to think critically about the material presented, as well as their own viewpoints. They learn to evaluate arguments, ask probing questions, and defend their positions, all of which are essential skills for academic and professional success.
5. **Networking Opportunities**: Seminars often bring together students, faculty members, and sometimes professionals from the field. This provides students with valuable networking opportunities, allowing them to connect with others who share their interests and potentially explore future academic or career paths.
6. **Preparation for Future Endeavors**: The skills acquired through participating in seminars—such as research, communication, critical thinking, and networking—are highly transferable and applicable in various aspects of life, including further academic pursuits, careers, and personal development.

Overall, student seminars play a vital role in fostering intellectual growth, communication abilities, critical thinking skills, and professional development, making them an indispensable component of the educational experience.

Student seminars are incredibly important for several reasons:

1. **Academic Development**: Seminars provide students with the opportunity to delve deeper into specific topics within their field of study. They allow students to engage in critical thinking, analysis, and discussion, which are crucial for academic growth.
2. **Enhanced Learning**: Presenting a seminar requires students to thoroughly research a topic, which enhances their understanding beyond what they might gain from traditional lectures or textbooks. Moreover, listening to peers present seminars exposes students to a variety of perspectives and ideas, enriching their learning experience.
3. **Communication Skills**: Seminars provide a platform for students to practice their communication skills, both oral and written. Presenting a seminar involves articulating complex ideas in a clear and concise manner, while participating in discussions hones active listening and speaking skills.
4. **Critical Thinking**: Engaging in seminar discussions challenges students to think critically about the material presented, as well as their own viewpoints. They learn to evaluate arguments, ask probing questions, and defend their positions, all of which are essential skills for academic and professional success.
5. **Networking Opportunities**: Seminars often bring together students, faculty members, and sometimes professionals from the field. This provides students with valuable networking opportunities, allowing them to connect with others who share their interests and potentially explore future academic or career paths.
6. **Preparation for Future Endeavors**: The skills acquired through participating in seminars—such as research, communication, critical thinking, and networking—are highly transferable and applicable in various aspects of life, including further academic pursuits, careers, and personal development.

Overall, student seminars play a vital role in fostering intellectual growth, communication abilities, critical thinking skills, and professional development, making them an indispensable component of the educational experience.

WORLD ENVIRONMENT DAY CELEBRATION

DEPARTMENT OF BOTANY

05-06-2023

World Environment Day (WED) is celebrated annually on June 5th and serves as a crucial platform for raising awareness and advocating for environmental protection. The celebration of **World Environment Day** holds immense significance for several reasons:

1. **Awareness**: **World Environment Day** helps to raise awareness about pressing environmental issues such as climate change, pollution, deforestation, and biodiversity loss among people worldwide. It educates individuals and communities about the importance of preserving and protecting the environment for present and future generations.

2. **Action**: The day encourages individuals, communities, governments, and organizations to take positive actions to address environmental challenges. It serves as a catalyst for collective action, inspiring people to participate in activities like tree planting, clean-up campaigns, and sustainable development initiatives.

3. **Global Collaboration**: **World Environment** Day promotes international cooperation and collaboration to tackle environmental issues on a global scale. It brings together governments, NGOs, businesses, and citizens from around the world to exchange ideas, share best practices, and work towards common environmental goals.

4. **Policy Advocacy**: The day provides an opportunity for policymakers and leaders to highlight the importance of environmental conservation and advocate for stronger environmental policies and regulations. It can influence decision-making processes at local, national, and international levels to promote sustainable development and environmental stewardship.

5. **Education**: **World Environment Day** is an excellent educational tool for promoting environmental literacy and fostering a deeper understanding of the interconnectedness between humans and the environment. It encourages environmental education initiatives in schools,

universities, and communities to empower individuals with the knowledge and skills needed to become responsible environmental stewards.

6. **Inspiration**: Celebrating **World Environment Day** inspires individuals and communities to adopt more sustainable lifestyles and consumption patterns. It encourages people to make environmentally conscious choices in their daily lives, such as reducing waste, conserving energy, and supporting eco-friendly practices.

7. **Long-term Impact**: While **World Environment Day** is celebrated annually, its impact extends beyond a single day. The awareness, actions, and commitments made on this day can lead to long-term positive changes in attitudes, behaviors, and policies towards the environment, ultimately contributing to a more sustainable and resilient planet.

In summary, the celebration of **World Environment Day** is important as it raises awareness, inspires action, promotes collaboration, advocates for policy change, fosters education, inspires individuals, and generates long-term positive impacts for the environment and society as a whole.

WORLD ENVIRONMENT DAY CELEBRATION

DEPARTMENT OF BOTANY

Report

Celebrating World Environment Day offers several benefits to students, empowering them to become responsible global citizens and environmental stewards:

1. **Environmental Awareness**: Participation in World Environment Day activities raises students' awareness about pressing environmental issues such as climate change, pollution, biodiversity loss, and resource depletion. It helps them understand the interconnectedness between human actions and the health of the planet.

2. **Hands-On Learning**: Engaging in environmental activities, such as tree planting, clean-up campaigns, and recycling initiatives, provides students with hands-on learning experiences. These activities allow students to apply classroom knowledge in real-world contexts, fostering a deeper understanding of environmental concepts and solutions.

3. **Critical Thinking and Problem-Solving Skills**: World Environment Day activities encourage students to analyze environmental challenges critically and develop innovative solutions. They learn to identify environmental problems, assess their causes and impacts, and brainstorm effective strategies for mitigation and adaptation.

4. **Sense of Responsibility**: Celebrating World Environment Day instills a sense of responsibility and accountability in students towards the environment. It encourages them to reflect on their

Conclusion: The grand success of this year for science day celebrations is due to the active role played by the organizing committee members and the team work of the ever supporting staff and students of this college to conduct world environment day. Govt degree college, Paderu always devote to generate scientific temper in the society and encourage the students to take up science as their future.

Botanical tours are of significant importance for several reasons:

1. **Education and Awareness**: Botanical tours provide an opportunity for people to learn about plant diversity, ecosystems, and the importance of conservation. Participants gain hands-on experience and knowledge about various plant species, their habitats, and their ecological roles.

2. **Conservation**: By experiencing botanical diversity firsthand, individuals develop a greater appreciation for the importance of conserving natural habitats. Botanical tours often emphasize the need for conservation efforts to protect endangered plant species and their ecosystems.

3. **Research Opportunities**: Botanical tours offer opportunities for researchers to study plant populations in their natural habitats. Observations made during these tours can contribute to scientific knowledge about plant ecology, distribution, and adaptation to different environments.

4. **Cultural and Historical Significance**: Many botanical sites have cultural and historical significance, either due to their use by indigenous communities or their role in shaping human history. Botanical tours often incorporate information about the cultural and historical context of the plants and landscapes visited.

5. **Health and Wellness Benefits**: Spending time in natural environments has been shown to have numerous health benefits, including reduced stress levels, improved mood, and increased physical activity. Botanical tours provide an opportunity for participants to connect with nature and reap these benefits.

6. **Promotion of Sustainable Practices**: Botanical tours can promote sustainable practices by highlighting the importance of responsible tourism and conservation-minded behaviors. This includes respecting natural habitats, minimizing ecological impact, and supporting local communities.

7. **Recreational Enjoyment**: Beyond the educational and conservation aspects, botanical tours offer participants the chance to enjoy the beauty of natural landscapes and gardens. Many people find relaxation and pleasure in exploring botanical sites and connecting with nature.

Overall, **Botanical Tours** play a crucial role in fostering appreciation for plant diversity, promoting conservation efforts, supporting research endeavors, and providing recreational and educational experiences for people of all ages.
