DEPARTMENT OF ZOOLOGY & NSS

BRIEF REPORT

ACTIVITY: DEWORMING DAY

DATE: 10th FEBRUARY, 2022

ORGANIZED BY: DEPT.OF ZOOLOGY & NSS

NO.OF PARTICIPANTS: 138

INTRODUCTION:

Department of Zoology and NSS organized Deworming day to create awareness on worms and its diseases. Health department distributed albendazole tablets to students.

The primary objective of Deworming Day is to reduce the burden of parasitic infections, improve overall health, and enhance the well-being of the targeted population. By administering safe and effective deworming medications, the initiative aims to break the cycle of transmission and protect individuals, especially children, from the adverse effects of parasitic infections.

OBJECTIVES:

The primary objective of Deworming Day is to reduce the burden of parasitic infections, improve overall health, and enhance the well-being of the targeted population. By administering safe and effective deworming medications, the initiative aims to break the cycle of transmission and protect individuals, especially children, from the adverse effects of parasitic infections.

THEME: Reduce the burden of STH infection and make improvements in the health sector of the children.

PLANNING & COORDINATION: Local health authorities collaborate with educational institutions, community leaders, and other stakeholders to plan and coordinate Deworming Day activities. Adequate

supplies of deworming medications are procured, and healthcare professionals are trained to administer the drugs safely.

AWARENESS CAMPAIGN:

Prior to Deworming Day, extensive awareness campaigns are conducted to inform the community about the importance of deworming and the benefits it offers. On the designated day, trained healthcare professionals visit College and to administer deworming medications to eligible individuals.

HEALTH IMPROVEMENT:

Deworming helps reduce the burden of parasitic infections, leading to improved health and well-being. Children who receive deworming treatment may experience better physical and cognitive development.

QUOTATIONS / SLOGANS:

Use sanitary toilets.

Do not defecate outside.

Properly wash hands mainly before eating and after using the toilets.

Wear slippers and shoes.

Wash fruits and vegetables properly in safe and clean water.

Eat properly cooked food.

CONCLUSION:

Deworming Day is a crucial public health intervention that contributes to the overall well-being of communities, especially in regions where parasitic infections are prevalent. By addressing the root causes and providing preventive measures, Deworming Day plays a vital role in breaking the cycle of transmission and improving the health outcomes of vulnerable populations. Continued support, collaboration, and awareness are essential to sustaining the impact of deworming programs and promoting a healthier future for all.
